COMMERCIAL AND FINANCIAL NEWS.

The extra Cunard screw steamer *Olympus*, which left Liverpool at 3 o'clock on the afternoon of the 8th, and Queenstown on the 9th March, arrived here at 6½ o'clock last evening.

The steamer *North American* arrived off Queenstown (instead of Londonderry) on the night of the 6th, and reached Liverpool at 10 P. M. on the 7th.

The *China* reached Queenstown early on the morning of the 7th, and arrived at Liverpool at 8:40 P. M. the same day.

The wreck of the *Bohemian* was understood to involve the Underwriters of Liverpool and London in a loss of nearly £80,000 sterling. The ship was but partially insured.

The War in Denmark—Perfide Albion in Danish—A General War—European Combinations—England Powerless—Movements of the Mexican Emperor—Mr. Mason in London—The Fenian Movement—German Recruits at Liverpool—Rights of Confederate Cruisers—The Pampero—Freedom of Polish Serfs

LONDON, Tuesday, March 8, 1864.

East and West! We look alternately across the North Sea and the Atlantic. In our quiet nook—in this peaceful land of non-intervention, where iron-clad ships and Armstrong guns are only experimental playthings—we can look out on two wars with that kind of enjoyment that people are said to have, who, safe on the shore, behold ships and sailors tossing on a stormy sea.

The war in Denmark goes steadily on. The Germans, once in Jutland, move on to conquer it. They are about to invest Fredericia. They will leave the poor Danes nothing but their islands. Lord PALMERSTON, in the House last night, denounced it as "an outrage," but as he does not propose to do anything about it, he might as well have spared hard words, which only make his impotence more apparent. The Danes, meantime, are deeply outraged, not more against the Germans than against England. *Perfide Albion* is translated into Danish. They would like to have their bright and beautiful Princess back again. They think of the old days, when their fleets stormed along the English coast, and their warriors ruled over the English people. They reject the conference. They prefer to fight, single-handed though it be, against the forty millions of Germany, and take the chances of war. Copenhagen is preparing to resist the attack of a German fleet.

Aid for the wounded Danes is being sent from England. They do not much need it so far. The numbers wounded have not been large, and their arrangements to take care of them are very good. The Danes are a hardy, sturdy, well educated people. Every private soldier can read and write, and receives letters and supplies from his family. They will make a good fight, and expect to get better terms than they can hope for in a conference. They take the chances of a general war.

Will there be such a war? Russia is ready for one, and seems to expect it. Austria has not been, for many years, in so good a condition. But Europe waits the signal from France. It is asserted, denied, and reasserted, that France is making active preparations in her navy. The army is always ready But no note comes from Paris, and there is a disavowal of any wish to extend the frontiers. If, as is said, an alliance exists between Russia, Austria and Prussia, as against Poland, Hungary and Italy—against the revolutionary party in Europe—there must be a combination against them, or there can be no war. That combination must consist of France, England, Italy, Spain and Denmark. But England, to join in that combination, must abandon her ancient traditions and her "natural allies," which are Austria and Prussia. The Queen will never sanction a war with Germany. England is not in any genuine alliance with France, nor even with Italy. She wishes well—a large party at least does—to VICTOR EMANUEL as against the Pope, and would be glad to strengthen him with Venetia, but that is all.

Under these circumstances England can do nothing. The Prince of Wales must look on quietly and see his father-in-law hemmed up in Copenhagen, with two-thirds of his kingdom torn away. PALMERSTON may bluster about outrages in the House of Commons, while Earl RUSSELL meddles in the Lords. And England must digest her bitter meal of mortification as well as she is able.

The Emperor MAXIMILIAN has been received at the Tuileries. He is to pay a hasty visit to the Queen of England—possibly to be present at the christening on the 10th, and then he will hasten back to receive the Mexican delegation and the offered crown, so as to sail from Trieste, it is said, on the 15th, but probably a few days later.

It is to be noted in connection with these movements that Mr. MASON, the Southern Commissioner, has been instructed to return to London. There is a rumor of some new diplomatic movement of the Emperor, and, in spite of the news of Federal victories, the Confederate stock is rising, and is being exchanged for the Mexican. It is said with a degree of confidence which certainly surprises, that Mexico and France will and must acknowledge the independence of the Confederate States. I do not see the grounds for the assertion, and it may rest entirely upon a supposed necessity—the necessity of interposing a friendly power between the Mexican Empire and the great Northern Republic—the necessity for a balance of power on the Western Continent.

The Fenian movement in Ireland has called out a counter movement. On Sunday there were posted upon the walls of the Catholic Churches of Dublin, and perhaps of all Ireland, two broadside streets, intended to discourage Irish enlistments in the Federal army. One contained the correspondence between the Pope and the Archbishops of New-York and New-Orleans and JEFFERSON DAVIS; the other letters on the interests of Irishmen in the American war, by WM. SMITH O'BRIEN, JOHN MITCHELL, &c., with comments, all as damaging as possible to the Northern cause. The bishops and clergy of Ireland unite with those in America in denouncing the Fenian organization, and there will be a strong effort to put a stop to enlistments, if not to emigration. The Fenians charge the whole upon the British Government and British gold. But neither Government nor priesthood can hinder Irishmen from emigrating to America, and those who can offer the strongest inducements will get the soldiers. As the Southerners say, "The longest pole brings down the persimmons."

While this fight is going on in Ireland, which may or may not be aided by the Government, defending itself as it best can against the machinations of the terrible Fenians, I note the arrival of 160 Germans at Liverpool, avowedly en route to join the Federal army, for which they have been enlisted. They were promised a bounty of $100 at Liverpool, and it is said that some have refused to embark until it is paid them.

The Attorney-General, last night, in the House, in answer to a question which may have had a purpose, declared that the Confederate cruisers had a right to capture British ships, having as a part of their cargo contraband of war for the Federal States. So a Cunarder might be brought to off Liverpool, and made a lawful prize by the *Alabama* or *Rappahannock* if she had a case of rifles for New-York. Of course this is the law of the case, but it must have come a little hard to admit it. The Attorney-General, indeed, stated that the law required each belligerent to carry his prize into port for adjudication, but that, of course, would depend upon circumstances. The course formerly practiced would be for the prize to be carried into the nearest neutral port—say Liverpool. But as neutral ports are closed to both parties, and the right of taking prizes remains to both alike, they must do the best they can under these adverse circumstances.

The builders of the *Pampero* (supposed Confederate steamer) have offered to give the Government a guarantee, similar to that taken of the Danish Minister respecting an iron-clad building for Denmark, but the Government declines to release the *Pampero* on such conditions, not considering the offered guarantee sufficient.

Having glanced back at European affairs, which I admit to be my proper business, I must not forget an important measure just taken by the Emperor of Russia. He has freed the serfs in Poland. They have not taken part in the rebellion, and it was but right that their fidelity should be rewarded, while the act is a politic one, as making them more than ever interested in the support of the Government. Thus rebellion, east as well as west, seems to work in favor of freedom.

MONADNOCK.

NEWS BY THE OLYMPUS.

GREAT BRITAIN.

REBEL RIGHTS AND FEDERAL RIGHTS.

In the House of Commons on the 7th March, Mr. ROEBUCK gave notice that on the 11th he should put a question to the Government on American affairs. Earl RUSSELL had stated that Her Majesty's Government had remonstrated with the Confederate Government on its enlisting sailors and attempting to purchase vessels in England; but as the noble Lord had also stated that the Government desired to preserve a strict neutrality, he should ask whether it would remonstrate with the Federal Government on the employment by it of agents for the purpose of enlisting Her Majesty's subjects in Ireland as soldiers.

The Attorney-General, in reply to Mr. R. LONG, said that a Confederate ship-of-war had just the same right as a Federal ship-of-war to capture a British vessel carrying contraband of war, provided always that the capture was made with the intention to send the vessel before a Prize Court.

Mr. LAYARD, in reply to Mr. DALGLISH, said that Government was not prepared to accept from the builders of the suspected rebel steamer *Pampero* a similar assurance to that given by the Danish Ambassador with respect to vessels building for that Government.

THE DANO-GERMAN WAR.

Mr. DISRAELI made inquiries as to the invasion of Jutland, &c., by the Germans.

Lord PALMERSTON said he was unable to give any reliable information, but he repeated his conviction that the whole of the Austro-Prussian operations were an outrage upon Denmark and not justified by the state of affairs.

MISCELLANEOUS.

Mr. GLADSTONE made a great impression on the House by a speech in defence of his bill for adding small life insurances to the operations of the Post-office Savings Bank. While admitting the obligation of Government not to interfere with private enterprise, he pointed out that this measure was resolved upon in the interest of the most helpless and least protected class of the community—a class whom it had always been held that the State might make its special care. He then proceeded to the question how they were at present cared for by the institutions on which they depended—the Friendly Societies—and showed how grossly they were mismanaged and how unsuitable they were. After a debate the matter was postponed.

Messrs. E. YEOMANS & SONS, gunmakers, of London, had failed, having, it is stated, experienced severe losses in attempts to break the blockade of the Southern ports.

It is stated that a large number of Germans, who had been recruited in their own country for the service of the Federal Government, were being shipped to America via Liverpool, and there were reports that many of the men were complaining of the nonpayment of the promised bounties, and refused to embark without such payment being first made.

Capt. PATON, late of the *Great Eastern*, has been elected manager of the ferry between Liverpool and Birkenhead.

THE MEXICAN QUESTION.

The Archduke and Archduchess MAXIMILIAN arrived at Paris on the 5th, and forthwith proceeded to the Tuileries, where they were received by the Emperor and Empress of the French. Their stay in Paris was not expected to be more than four or five days. The arrangements for the Archduke's departure from Trieste would be completed on the 15th of March.

A Paris telegram asserts that an arrangement had been effected between the Emperor NAPOLEON and the Archduke whereby the latter finally agrees to accept the throne of Mexico, but it is said he will make this acceptance formally known to the Mexican deputation at Miramar, where the offer was first made to him.

The Paris correspondent of the London *Times* says the Archduke would visit London in a few days. That he accepts the throne, it is said, with a war debt of 130,000,000 francs, and that the Mexican army will be organized under the auspices of the French, and a portion of the French force will remain for some time in the country, with the character of a foreign legion. When all this is done, France will consider herself quite disembarrassed of Mexican affairs.

The *Morning Post's* Paris correspondent says the Archduke MAXIMILIAN has been advised to limit the Mexican loan to 4,000,000 sterling, and to postpone the claims of English bondholders and others until after he is seated on the Mexican throne. This small loan is as good as concluded with a German banking firm.

Mexican Securities declined 2½ per cent. in London on the 7th, but afterwards slightly rallied. The *Times'* City Article says: "The agitation was partly consequent on a report (supposed to be unfounded) that the Archduke MAXIMILIAN had succeeded in raising money for the immediate wants of the Empire, and under these circumstances will leave the old loans to be arranged or otherwise at pleasure. A swarm of intriguing speculators are now surrounding the Archduke, and all concerned with him, and the greatest caution will be necessary with regard to the faith to be placed in the assertions that may from time to time be transmitted by these persons."

The Morning *Herald* says, a statement, which, if it shall prove true, will be important, has been circulated, to the effect that a union will take place between Messrs. BARING BROTHERS and Messrs. ROTHSCHILD & Co. in the conduct of all financial engagements for Mexico.

THE WAR IN DENMARK.

A telegram from Copenhagen of March 5, says: The elections to the Folksthing of the Rigsraad took place to-day. All the National and Liberal candidates in Copenhagen favorable to an energetic prosecution of the war were elected. Mr. HALL, the Ex-Prime Minister, made an electioneering speech, in which he stated that after the arrival of Lord WODEHOUSE from Berlin, he had asked his Lordship whether the revocation of the November Constitution would prevent the entry of the Austro-Prussian troops into Schleswig. The reply was that it decidedly would not. "The alliance with Sweden was not an agreement made only between the sovereigns, but also between the Governments of Sweden and Denmark. A personal union between Denmark and Schleswig-Holstein would lead to the loss of those Duchies, or to Denmark being Germanized and ruined. The German Powers never stated their demands before they occupied the Duchies.

A telegram from Hamburg of March 7, says:

Letters received here from Copenhagen state that the civic artillerymen have been ordered to hold themselves in readiness, in case of need, to serve the guns of the forts which protect the town on the sea side. They are also to prepare to occupy the outer fort of the citadel, which commands the Sound in a northerly direction as far as Charlotten.

A telegram from Vienna of March 5 says: An imperial ordinance was promulgated on the 3d, containing regulations for the capture and stoppage of hostile and suspected ships by Austrian vessels. The ordinance purports to be issued on account of the hostile measures adopted by Denmark against German ships.

The *Pays* states that three Prussian war ships have received orders to leave Brest, and proceed immediately to the North Sea.

The *Patrie* says: Two grave facts have been communicated to us by private telegrams, and confirmed by private information. Austria having consented to associate herself in the execution of all the strategic plans of Marshal WRANGEL, the continuance of hostilities in Jutland is said to have been decided upon at Berlin. From Breslau we learn that the whole Russian army has been placed on a war footing. The Imperial Guard has been ordered to the Prussian frontier, and the Sixth Corps D'Armée has been ordered from the extreme provinces of Russia to Poland. These facts are incontestably connected with the execution of the engagements entered into between the Courts of Vienna, St. Petersburgh and Berlin, the first realization of which is the declaration of a state of siege in Galicia.

THE FEDERAL DIET.

In the sitting of the Federal Diet of March 6, the Bavarian representative proposed that the Diet should notify to the Federal Commander in Holstein the conclusion of an understanding between that body and the two great German Powers, in reference to the occupation of the military route in that Duchy by the allied troops. Bavaria also proposed that the Federal troops in Holstein should be reinforced by the Seventh Corps, and by another corps made up of troops from different States. An official communication to the Frankfort papers states that the Federal Diet has recently received no invitation from any quarter to be represented at an European Conference.

The *Nuce Preussische Zeitung* publishes the following from its Paris correspondent: "The negotiations for the conference have been suspended, the Danish Cabinet having lately informed the French Government that Denmark has decided upon entering into no agreement, the basis of which should be only personal union with the Duchies. Denmark would prefer to allow the Duchies to be forcibly torn from her, awaiting their reconquest from later events. In the higher political Parisian circles no one believes any longer in the possibility of a compromise."

Matters now being too complicated, France will not be able to avoid becoming involved in the question.

The Ministerial Stockholm *Jurikestidning* asserts that Sweden is accelerating her armaments as well as the concentration of troops.

Resolutions summoning the Government to aid Denmark, were adopted at a large popular meeting held at Stockholm March 6.

ALLIANCE OF RUSSIA, PRUSSIA AND AUSTRIA.

The London *Morning Post* takes it as proved that "an intimate alliance, probably by treaty, but certainly *de facto*, exists between the three Powers who have leagued together against what they call revolution, but what we call the cause of constitutional liberty. We shall certainly drift into war, for the people of England will assuredly rouse themselves and vindicate what, after all, are their true interests. We cannot passively stand by and see, as we shall see in a few weeks, all Europe convulsed in a struggle against despotism. The Danes may be sure that by boldly fighting they will engage our best feelings, and presently our best aid. We can never allow this country to be wrapped in the drab folds of the robes of the peace party, and to bleat the cry of 'perish Denmark,' while Mr. BRIGHT jingles the shillings and pence. We are made of other stuff. Among modern sensations, that will not be the least when an Austrian fleet sails up our channel, past our ports and past our ships, to the attack of Denmark. The hour rapidly approaches when the public opinion of this country will make its voice heard in tones which will dictate to Parliament and to the Ministry the path which they must follow."

The London *Times*, in another leader on the revival of the Holy Alliance, says:

"The way in which Prussia, Austria and Russia are going, evenly and persistently enough—albeit, as slowly though as surely as the march of a glacier—is toward aggression upon Denmark, Italy and Turkey. Nothing can stop them but the action of the Western Powers in the cause of justice, international law and treaty obligations."

FRANCE.

The Paris Bourse on the 7th opened very flat and lower, but closed with more steadiness at 66.25.

RUSSIA AND POLAND.

Count BLONDOFF, President of the Council of the Empire, died on the 1st March.

The *Journal de St. Petersburgh* of the 6th, publishes a decree regulating the conditions for the emancipation of the peasants in Poland; also, one relative to the organization of the Communal Administrations on the principle of self-government in Poland, by which all connection between the nobility and peasantry is entirely severed.

At Warsaw, on the 6th, the Imperial manifesto announcing the emancipation of the peasants, was solemnly proclaimed in the public squares.

Letters from St. Petersburgh state that in the southern provinces of Russia a large extent of country has been "tapped," yielding very fine petroleum.

ITALY.

The Emperor of Rrussia and other powerful European Sovereigns had addressed autograph letters to the Pope, jointly expressing a hope that tranquillity in Italy may not be disturbed.

GREECE.

A Ministerial crisis has taken place, and several changes were made in the Cabinet.

THE CITY OF WASHINGTON'S NEWS.

The Inman steamer *City of Washington*, which left Liverpool at noon on the 9th, and Queenstown on the 10th of March, arrived here at 3 o'clock yesterday afternoon.

GREAT BRITAIN.

The hearing of the appeal to the House of Lords, in the case of the gunboat *Alexandra*, was fixed for the 11th of March.

Mr. Justice MELLOR, on the 8th inst., granted an application for a commission to examine the Pasha of Egypt and other witnesses at Cairo relative to the steam rams seized on the Mersey.

The English Board of Trade returns for January show that the exports were £10,413,586, which is nearly £2,500,000 in excess of January, 1863. The export of cotton goods was 74 per cent. in value and 50 per cent. in quantity greater than last year.

DEBATE ON THE DANO-GERMAN QUESTION.

In the House of Lords, on the 8th inst., the Dano-German war was debated. Earl DERBY asked for information as to the present position of affairs.

Earl RUSSELL, in reply, said that in entering Schleswig at a time when Denmark was ready to concede to their demands, Austria and Prussia commenced a most unjustifiable war. By way of retaliation, the Danish Government had captured Austrian and Prussian ships: and Austria and Prussia regarding this as centralising the war, had extended their military operations into Jutland. With reference to the papers illustrating these events, he considered that it would not be advantageous to the public interest, or to the success of negotiations still pending, to produce them at the present moment. A proposal for an armistice, made by Government, having fallen through, they next proposed a conference without an armistice to the belligerents. To this Austria and Prussia had agreed; but the answer of Denmark had not yet been received, though he expected it at the end of the week. If, when that answer was received, it appeared that Denmark acquiesced in the conference, fresh negotiations would be entered into; on the other hand, if the answer was in the negative, the war would be continued on a war footing.

In reply to a question from Lord ELLENBOROUGH, Earl RUSSELL said Austria and Prussia still adhered to their original declaration that they would respect the integrity of the Danish Monarchy.

Lord SHAFTSBURY trusted that if an Austrian fleet entered the Baltic, a British squadron would be sent to watch its movements.

Lord RUSSELL said the Channel Squadron was within easy distance, and could at once be dispatched to the Baltic if such a measure were considered necessary.

In the House of Commons on the 8th the proceedings were unimportant.

Lord PALMERSTON notified that the Easter recess would extend from March 18 to April 4.

THE WAR IN DENMARK.

It is stated that the "Gondrecourt" brigade of the Austrian army advanced toward Jutland on the 7th inst. The Prussian Commander-in-Chief, Marshal VON WRANGEL, was at Monsild, on the frontier of Jutland. The Austrian General, GABLENZ, was following him thither.

A large number of hospitals had been prepared at Kolding.

The investment of Frederica by the Germans was expected in a few days.

THE RUMORED ALLIANCE BETWEEN RUSSIA, PRUSSIA AND AUSTRIA.

The English journals continue to persist in the above alliance, but some of the Continental journals question it.

There is no confirmation of the statement that the Russian Imperial Guards had been ordered to the Prussian frontiers.

The Paris *Pays* says a strong body of Austrian troops had been dispatched to Italy.

The London *Times* takes a commercial view of the political position of England. There is, it says, a commercial, as well as a political world, and from that world we are not only not shut out, but are becoming more and more its active and thriving centre. But can it be wondered at that England avoids association with members of the new Holy Alliance? She stood aside forty years ago and allowed Spain to be invaded, but the Powers which sanctioned the outrage were punished by civil war, revolution, and eternal obloquy and disgrace." This the *Times* considers a motive for present inaction.

FRANCE.

The Archduke MAXIMILIAN continued in Paris. It is stated that Señor ARRANJUEZ had been appointed Mexican Minister in London.

The *Morning Post* says it is believed that it has been found impossible at Paris to negotiate the proposed Mexican loan until after the arrival of the Archduke in his capital and the formation of his Government in a permanent shape.

The Emperor NAPOLEON had consented to arbitrate on certain questions pending between the Suez Canal Company and the Viceroy of Egypt.

The Bourse, on the 8th, was firmer. Rents closed at 66.30.

HOLLAND.

MYNHEER CREMERS had been appointed Minister for Foreign Affairs.

INDIA.

The Bombay mail of Feb. 15 is received. The commercial news has been anticipated. The new crop of cotton was expected to be large, but arrivals for shipment at Bombay were not expected till the end of February. No tidings had been heard of the *Alabama* since the destruction of the ship *Emma Jane*.

THE WAR IN DENMARK.

THE SEVERE ENGAGEMENT NEAR VEILE.

COPENHAGEN, Tuesday, March 8—5:5 P. M.

The Austrians are advancing large forces upon Fredericia.

Gen. WILSTER, the Danish Commander-in-Chief there, and HOFFMANN, his head of the staff, were wounded to-day, probably in an outpost encounter.

KOLDING, Tuesday, March 8.

The Prussian division of the Guards, accompanied by the Crown Prince and Field-Marshal VON WRANGEL, advanced to-day to Sonderskoogl, driving the Danes back to Fredericia and capturing 180 prisoners.

The Prussian loss was 2 killed and 20 wounded.

The Austrians are advancing on Veile.

WEDNESDAY, March 9.

At 6 A. M. yesterday, the Austrians crossed the Kolding-au in two columns. After a very exhausting march of one German mile and a quarter they encountered the Danish cavalry to the south of Veile. The Austrians forced back the Danes to Veile, where three Danish infantry regiments, three batteries, and two cavalry regiments took up a position to the north of the Veile River. The Nostiz Brigade, under the command of Gen. VON GABLENZ, a portion of the Gondrecourt Brigade, and the artillery reserve succeeded in dislodging the Danes, in spite of the great strength of their position, and in driving them back toward Horsens. The Danish loss was considerable, and the Austrians took many prisoners.

COPENHAGEN, March 7—8 55 P. M.

The President of the Council, in a speech delivered before his Electors, said he should continue to struggle persistently for the independence of the Monarchy and the maintenance of the Union between Denmark and Schleswig. He would never consent to a dissolution of this union.

9 P. M.—A portion of the Royal Danish Foot Guard has made a descent, for reconnoitering purposes, upon the eastern coast of Holstein. They marched to the village of Putlos, and were received in a friendly manner by the inhabitants.

TUESDAY, March 8—3:15 P. M.

The enemy is advancing in great force upon Fredericia.

An engagement has taken place near Gudsoe.

The Danish Gen. WILSTER and the Chief of his Staff have been wounded.

TUESDAY, March 8—4:45 P. M.

Official dispatches have been published here, which state:

"Our outposts were attacked this morning at Krybily and Havreballe-gaard, and forced back. The enemy now occupies Eritsö and Staunstrup, before Fredericia. Gen. WILSTER and four other officers have been wounded. The cannonade has ceased."

WEDNESDAY, March 9—5:47 P. M.

The following official announcement has been made:

"Two engagements have taken place, yesterday and the day before—yesterday in Jutland.

Our troops, having been attacked in force, withdrew without offering great resistance.

Our vanguard took up a position behind Eritsö. A simultaneous attack was made on our Fourth Division, and a severe engagement ensued to the rear of Veile.

The position was untenable, owing to many of our troops having previously been withdrawn. We effected our retreat toward the north. Our loss was inconsiderable."

FLENSBURG, Tuesday, March 8—Evening.

An ordinance of the Austrian and Prussian Civil Commissioners has been promulgated to-day, stating that from the 1st of April next the Danish currency and the notes of the Bank of Copenhagen will no longer be accepted in payments made to the public treasury.

The same ordinance declares that the Schleswig-Holstein currency and silver thalers of all the German States will be a legal tender.

STOCKHOLM, Monday, March 7—Evening.

The public meeting held yesterday in this city was very numerously attended. Thousands of people being unable to obtain admittance to the hall, which was quite full, were waiting in the streets.

The following resolutions were unanimously adopted:

"1. This meeting expresses its strongest sympathy for Denmark, whose resistance it considers to be just. It further considers the war as a struggle for the independence and free development of the whole North.

2. This meeting believes that the honor and real interests of Sweden render an energetic policy on the part of that country necessary."

The people are ready to bear the sacrifice which such a policy may necessitate.

In the course of the evening a popular demonstration was made before the house of the Danish Minister, when cheers were given for Denmark.

HAMBURG, Wednesday, March 9.

A Prussian siege train, consisting of 50 mortars and 3,000 projectiles, of a calibre varying from 25℔. to 65℔., passed through here to-day.

ENGLISH POLICY TOWARD DENMARK.

The discussion in the Lords on the flagrant outrages committed by Austria and Prussia is noticed, but the *Times* and the Peers are accused of exciting popular passion and stirring up strife among England and the other Powers of Europe.

The *Times* says the question is not of an easy triumph over the Prussian and Austrian fleets. It means the letting loose of discord over the whole surface of Europe—the stirring up of every revolutionary element—the arming anew of every discontented nationality. We shall do these things whenever the people and their representatives consider that they ought to be done, but we will not plunge into such a sea of miseries merely because the House of Lords tells us that we, on whom the weight of the conflict will assuredly fall, ought no longer to be trifled with.

The *Post* attributes the conduct of the German Powers to a belief that England should not be raised from a state of neutrality; nevertheless, if the German Powers should entertain any project of combining their naval forces at Duppel, or to act independently in any other quarter of the Danish dominions, the *Post* says that positively this time Great Britain could not remain a passive spectator of such an outrage; and if an Austrian fleet should venture through the Straits of Dover, it will not cross the German ocean entirely alone.

The *Herald* points out that the Peers who deplored the inaction of England have always acted with regard to party interests. The Germans must decide whether they will be content with the injury they have already done Denmark and recognise the London treaty, or measure themselves with the might of England and all the revolutionary and other hostile forces which war with her would call into action.

Her Majesty, with the royal family of the King of the Belgians, will come to town to-day to attend the baptism of the infant son of the Prince of Wales. The Queen will return to Windsor in the afternoon.

NEWS BY THE GERMANIA.

MISCELLANEOUS.

The steamship *Germania*, on the 9th March from Southampton, also arrived last evening.

The *Scotsman* says: "The Danish cruisers are still in the offing, and are evidently keeping a sharp lookout for prizes. When last seen the two were somewhere above the Bass, and a parting shot was observed to be sent after a fugitive as she stood away to the northward under a heavy press of sail."

A dispatch from Dover of March 6, says: "The United States frigate *Kearsage* arrived here on the 5th, and left early on the 6th for the Downs."

The *Times* says: "Advices from St. Petersburgh state that in the southern provinces of Russia a large extent of country has been 'tapped,' yielding very fine petroleum. Should the supply prove to be in any degree permanent and of the quality supposed, the discovery is likely to have an important bearing on the trade of Odessa or of Sebastopol, and to hasten the contemplated construction of a railway to the latter place, which is to be declared a free port."

FRANCE.

The *Constitutionnel* says: "The proclamation of a state of siege in Galicia is a serious and lamentable fact, but the English press draws exaggerated consequences therefrom, in concluding that a political combination exists between the Cabinets of Vienna and St. Petersburgh. As we are in the habit of commenting on precise information only, we will say no more on the subject now. We confine ourselves to pointing out the contradiction between Austria making war in Denmark in the name of the principle of nationalities, and her conduct toward the Poles in Galicia."

The *Memorial Diplomatique* says: "The delay caused by the indisposition of the Archduke MAXIMILIAN will only allow him to remain four or five days at Paris, since, independent of the visit of courtesy which he has to pay to Queen VICTORIA, cousin of the Princess CHARLOTTE, the latter has to take final leave of her illustrious father, who will remain one month in England."

There was very little demand for cotton at Havre last week, and sales were confined to 1,100 bales. On Saturday the demand was moderate, and prices were falling.

M. MASQUELIER, a Havre merchant, cultivates cotton in Algeria. The whole of his crop consists of long silk cotton. This cotton finds a ready sale at Havre. In 1860 it sold at 5f. 60c. the kilo, and in 1861 at 10f., and the average price at present is 11f., the kilo.

The Paris wheat market was dull, at 50c. lower on the sack.

The Paris flour market was also dull. Baker's flour fell from 1f. to 1f. 75c. the sack.

Accounts from the growing crops are favorable,

The Paris Bourse was unchanged.

ITALY.

A telegram from Turin of March 6, says. "The Emperor NAPOLEON has sent a reply to an address of the National Italian Society, forwarded to His Majesty on the occasion of the late conspiracy. ENGLISH ARTILLERY

In the House of Commons on the 10th the subject of naval armaments was debated. It was contended that England was behind hand in the matter of guns, owing to the alleged inefficiency of the Armstrongs. Lord C. PAGET combatted the statement and asserted his belief that England was better off than France in the matter of guns, and also that in the matter of effective projectiles England was not behind America. He stated that by the courtesy of the American Government the Admiralty had been enabled to send an intelligent officer of the navy ot inspect the gun manufactories of the United States, and full information was expected as to what guns the Americans prefer and what progress they have made.

WEDNESDAY, March 23—P. M.

The price of Gold on the speculative operations in William-street, was advanced full 2 ₩ cent. to-day. The buyers for the upward turn, by making what is called Cash Gold (that is, for immediate delivery) scarce on the Street, fairly *cornered* the sellers on three day options, even in the absence of all export demand and only a moderate inquiry to pay customs. After the sailing of the Cunard steamer there was no movement in Bills on London. The rates cannot be kept up to correspond with the price of Gold, but drawers are not disposed to anticipate what the currency for first-class Bills may be for Saturday's mail.

There was no marked change in the Money Market to-day. The Stock Exchange borrowers are accommodated at 6@7 ₩ cent., as well at the old Banks—whose officers appear to have no immediate distrust in the Railway and fancy Mining speculation—as from private lenders.

The prices at the Stock Exchange Board were generally firm at the early session, and comparatively strong in the afternoon. The Railways of the West were in high favor on nearly all descriptions, and New-York Central attracted more attention among the Eastern lines. Harlem fluctuated in the course of the day 5@6 ₩ cent., adversely in the main, to the upward movement. The price appears to be regulated from day to day by telegraph from the State Capital, where the Legislature is beset by some three or four schemes for a Broadway Railroad, Harlem prominent among the number.

At 4 o'clock the following prices were made, in comparison with the same hour yesterday. The Government Stocks are steady, but like Exchanges on London, fail to follow the advance on Gold:

The semi-weekly Auction sale of Stocks by Mr. A. H. NICOLAY, is advertised on another page for Thursday, (to-morrow,) at 12½ o'clock.

Mr. PETER M. MYERS, of the Stock Exchange firm of P. M. MYERS & Co., has been admitted to membership at the Stock Exchange Board.

A subscription will be opened on Friday, 25th inst., at the office of Messrs. VAN SCHAICK & MASSETT, No. 19 William-street, for the Capital Stock of the New-York and Passaic Copper Company.

The *Cincinnati Gazette*, of the 16th, remarks as follows on the arrangements made for the connection between the Atlantic and Great Western and Ohio and Mississippi Roads in that city:

"This company (the Ohio and Mississippi) has purchased transfer grounds at Storr's, three-fourths of a mile in length, embracing all the land south of the canal and west of Mill Creek, with an unimportant exception. It is above high water, and arranged for five miles of side tracks, intended for the storage of cars of the Atlantic and Great Western, the Cincinnati, Hamilton and Dayton, the Ohio and Mississippi, and such other roads as may desire to use them.

The Ohio and Mississippi Railroad Company have recently removed the buildings on these grounds, and are now erecting a warehouse 800 feet in length by 65 feet in width, with two tracks running through it, and two adjacent, all of which are arranged for the wide and narrow guages. Four of the longest freight trains can occupy the building at the same time, and transfer their freight to each other. Trains on the inside tracks can be housed in perfect safety if necessary.

The transfer of through passengers will also be made at this place, avoiding the delay of the passage of trains through crowded streets and a detention of nearly an hour. The passenger trains of these roads will, of course, be run into the city for the benefit of city passengers, and of those who do not wish to proceed at once on their journey.

The transfer business of this and connecting roads has increased within a few years past to an amount so much beyond the anticipations of their managers, that it has necessitated the increase of facilities for its prosecution. The Ohio and Mississippi Railroad Company have shown a wise foresight in securing such an eligible location for the purpose, and are pushing to completion, with commendable energy, the necessary buildings for the accomodation of the immense transfer business now done at this point."

The following is the day's business at the office of the Assistant Treasurer of the United States, New-York: Receipts $1,961,065 29, including $186,000 for Customs; payments, $1,361,140 01; balance, $36,754,400 41.

There is a fair amount of offerings, but vessels suitable for this trade continue scarce and wanted, and are only procured at high prices, hence the upward tendency of the Freight market. OFFICE OF THE DELAWARE, LACKAWANNA AND WESTERN RAILROAD CO., NEW-YORK, March 16, 1864.

This Company will hold their Fourteenth Regular Monthly Auction, on WEDNESDAY, the 30th day of March, 1864, at 12 o'clock, noon, at the office of the Company, No. 35 William-st., at which time they will offer, by SIMEON DRAPER, Auctioneer,
TWENTY-FIVE THOUSAND TONS OF FRESH MINED SCRANTON COAL,
embracing all the usual sizes, and deliverable at their depot, Elizabethport, N. J., during the month of April next.

The sale will be positive. Each lot put up will be sold to the highest bidder; no bids, in any form whatever being made for account of, or on behalf of the Company.

Fifty cents per ton in bankable funds, to be paid at the time and place of sale, and the balance in like funds on receiving the order for the coal, which must be called for within ten days thereafter, and the coal taken away within thirty days from the day of sale, unless navigation is obstructed. Buyers who wish, however, can have an additional thirty days for taking the delivery of their purchases, by making a further deposit of fifty cents per ton within the ten days above specified. Interest at 7 per cent. per annum will in such case be charged on the balance, from the time stipulated for payment until paid, and twenty-five cents per ton to cover the expense of stocking the coal—both to be paid on delivery of order.

The other conditions of sale will be substantially those hitherto accepted by all purchasers, by private contract, of coal deliverable at Elizabethport, so far as applicable. The coal will be delivered direct from the cars on their arrival from the mines, when practicable—otherwise from the stock. NEWS OF THE DAY.

THE REBELLION.

The United States transport *Arago*, Henry A. Gadsden, commanding, from Port Royal, S. C., at 6 P. M. Saturday, March 19, arrived yesterday morning. Affairs before Charleston and at other points in the department were quiet. The rebels had successfully launched another iron-clad in Charleston Harbor, called the *Ashley*. A successful reconnoissance to Bull's Bay, S. C., had been made. On the night of the 11th the rebels attempted to surprise our pickets, but were repulsed. The rebel blockade-runner *Sophia* had been captured by the *Huron*.

The Louisville *Journal*, of the 18th, in speaking of the expected rebel raid into Kentucky, says that not a few Kentucky rebels in the South, have written, within a short time, to their rebel relations, friends, and sympathizers at home, to sell or in some way make secure their horses, mules, cattle, sheep, hogs, grain and other kinds of movable property, because there would in a short time be a more formidable and destructive rebel invasion of this State than there has ever yet been. They say that Morgan and others will come in, probably from different directions, with an aggregate force of sixteen or seventeen thousand men, prepared, if not to occupy Kentucky permanently, at least to ransack her throughout her whole extent, sweeping away everything of value, and leaving her stripped and desolate. The *Journal* considers that the main purpose of Breckinridge's movement into Western Virginia is an invasion of Kentucky, and that there is no doubt that a powerful force under Buckner or Preston, or both, strengthened by John Morgan's, Forrest's and Champ Ferguson's Cavalry, will coöperate with him in the invasion.

The Pulaski *Volunteer* states that on the 8th inst. Gen. Dodge left Athens with a small force consisting of a portion of Fuller's Brigade and the Engineer Corps, for the Tennessee River, which he reached and crossed the same night. He surprised the enemy at Decatur, and captured it with but little resistance from the terrified rebels. The main part of the force crossed above town, and arrived at the outskirts just in time to see the flying rebels make their exit on the opposite side. The force in Decatur was estimated at from four to six hundred, about equal to the number that so skillfully drove them out and captured their city. Our forces still hold the place, and it is said will make a post there.

The Palmetto *Herald* (Hilton Head, S. C.,) of the 17th, says eight deserters arrived at Folly Island on Saturday, 12th inst., and reported that Admiral Farragut had captured Fort Powell, below Mobile, with a garrison of over one thousand men. This is not confirmed from any other source.

The Chicago *Journal* says "that quite a number of our Western troops are to be immediately transferred to the Eastern theatre of war. The Northwestern soldiers will, it is likely, help to take Richmond."

The Raleigh (N. C.) *Progress*, of the 8th, says that Gen. Beauregard has been transferred from the command at Charleston to the Army of the Southwest, and that Gen. D. H. Hill succeeds to the command at Charleston.

FROM EUROPE.

The steamships *Olympus*, *City of Washington* and *Germania* all arrived at this port yesterday, bringing four day's later advices from Europe, the dates bing to the 10th instant. The news is more than ordinarily interesting. A severe fight had taken place between the Austrians and Danes, near Veile, in which the losses on both sides were heavy, and the Danes were driven from their position. The Allies have invaded Jutland, and at last advices were advancing in great force toward Fredericia. The consideration of the Danish question had occupied a large part of the time in the British Parliament, and in the debate on the 8th instant, in the House of Lords, Earl Russell characterized the conduct of Austria and Prussia in inaugurating the war as "most unjustifiable." Earl Russell further said that propositions for a conference were still pending between the belligerents, but Denmark had not replied to the overtures. The debate was considered as being the most hostile demonstration which Parliament has yet made. Elections to the Folksthing were held in Denmark on the 5th, and the candidates demanded the energetic prosecution of the war, declaring the abrogation of the November Constitution to be now impossible. The Danes seem to possess an indomitable spirit, which is determined upon preserving the integrity of the monarchy, and the sympathies of the liberal nations are cyrstalizing around them. The British press are greatly exercised over a rumored alliance between Russia, Prussia and Austria, ostensibly on the ground of opposing revolution, but really against constitutional liberty, and opinions were expressed that England would certainly drift into war, it being impossible to remain neutral while Europe is convulsed by a struggle against despotism. The rumored alliance had affected the money market. The Archduke Maximilian still remained at Paris and was engaged in preparing for his regal state in Mexico. In Warsaw, the Imperial decree of Russia, announcing the emancipation of the peasantry and the entire severance of the ties which bind them to the nobility, was publicly proclaimed on the 6th. The latest market reports advise a steadiness in the breadstuffs, provision and produce markets. Consols for money closed at 91@91¼. The steamship *China* also arrived at midnight with three days later news. On the 28th of February the pirate steamer *Florida* arrived at Madeira from Brest, and was allowed to receive twenty tons of coal, besides water and provisions. She left the port on the following day. The U. S. corvette *St. Louis* was at Madeira when the *Florida* arrived. The King of Bavaria died on the 11th inst. There was little additional war news. A tremendous gunpowder explosion had occurred in the Calabar River, Africa, and the underwriters were heavy sufferers.

STATE LEGISLATURE.

In the Senate, yesterday, a unanimous report was presented against the passage of the Harlem Broadway Railroad Bill, but on motion of Mr. Dutcher the question of agreeing with the report was postponed, to enable him to make some remarks upon the bill. Among the bills reported were the following; Respecting an amendment to the State Constitution, authorizing the appointment of five Commissioners of Appeal; for the better protection of seamen of the port of New-York; authorizing the New-York Infirmary for Indigent Women to confer the title of M. D.: authorizing the New-York authorities to convey certain real estate on Ward's Island; The following bills were passed: Providing for the sale of real estate belonging to lunatics; amending the charter of the Morrisania Fire Department; relative to the West Farms Town Hall; authorizing the New-York authorities to convey certain real estate to the Hebrew Benevolent Society; relative to criminal records in New-York. Adjourned. In the Assembly the following bills were reported complete: To incorporate the American Literary Fund Association in New-York; to incorporate the Tom Moore Association of New-York; to incorporate the Wire-Drawers' Association of New-York: relative to counterfeit bank bills; to consolidate the Boston and Hartford and Erie Extension Railroad Companies. The following bills were passed: To incorporate the Grand Hotel Company, New-York. To regulate the freight and passenger tariffs on the Hudson River Railroad. Relative to the National Academy of Design; recommitted, with instructions to strike out the clause exempting property from taxation. To incorporate the Mechanics' Dime Savings Bank in New-York. To incorporate the Central Park Hotel Company. Relative to the National Academy of Design; amended by the committee as instructed. Mr. Ingraham introduced a bill to confirm certain ordinances of the Mayor and Commonalty of New-York, relative to the Harlem Railroad ground.

GENERAL NEWS.

In the *American Journal of Science and Arts* for March, Prof. J. D. Dana continues the series of articles upon the classification of animals based upon the principle of cepalization, which are creating such a stir in the scientific world. The paper in this number of the *Journal* is devoted to the Classification of Herbivores. An elaborate discussion of Celestial Dynamics, by J. R. Mayer, follows. Among the other papers may be mentioned one by D. Trowbridge, on the Invisibility of Nebulous Matter; on Fossils from the Potsdam of Wisconsin and Lake Superior, by Prof. Alex. Winchell; Remarks on the Family Pteriidœ; on the Theory of the Tides by Wm. Dennis; and Contributions to Luthology, by T. Sterry Hunt, M. A.

About 4 o'clock yesterday morning a fire broke out in the woolen and print works of Messrs. Stuart & Stryker, situated at Nos. 215 and 217 West Thirty-sixth street. These two buildings were entirely destroyed. The firm estimate their loss at about $160,000. Four or five tenement houses were also destroyed, and at least twenty-five families were rendered homeless. Property to the amount of $300,000 was destroyed by this conflagration.

The First New-York Engineer Regiment arrived yesterday from Hilton Head, and was received by the authorities. The Seventh Regiment acted as escort; a review by the Mayor and Common Council was had, after which march was made to Jefferson Market Drill Room, where an excellent banquet was enjoyed.

There are strong hopes of the safety of the *Re Galantuomo*. The brig *Howard*, Capt. Smith, arrived yesterday, from Liverpool, reports having seen, March 10, a large man-of-war not fully manageable; the fore and mizzen top-gallant masts were down and main topmast broken off. Capt. Smith is positive the vessel he saw was the *Re Galantuomo*, he having previously seen that vessel at Naples.

An application has been made to our Legislature, by the Metropolitan Railway Company, for leave to tunnel Broadway from Bowling Green to the Central Park, for the purposes of a railroad. By citizens, the proposition for an underground road is viewed with great favor.

Mary J. Johnson and Carrie E. Jones, alleged spies for the rebels, have been sent North from the Old Capitol Prison at Washington, and arrived at Boston yesterday. They were transferred to the Fitchburgh House of Correction for present safe-keeping.

Hon. Owen Lovejoy, representative in Congress from the Fifth District, Illinois, has been lying very ill at the residence of a friend in Brooklyn. It was feared yesterday afternoon that he could survive but a short time.

The secession press continue jubilant over the results of the battle of Olustee. One writer speaks of the long list of casualties in this paper, of the 2d, as "the prettiest page of printed matter he ever saw."

It appears that the gunboat *Peterhoff*, recently sunk off Wilmington, N. C., was mistaken for a blockade-runner by the gunboat *Monticello*, which run her down and sunk her.

Prices of Flour advanced, yesterday, 5c.@10c. ℔ bbl., and of Wheat 1c.@2c. ℔ bushel, with a moderate business. Mixed Western Corn was heavy. Oats were also heavy. Rye and Barley were unchanged. Whiskey was active and dearer. Provisions were in more demand and firm. Tallow and Cotton were brisker and higher. Freights were moderately active, with 434 vessels of all classes in port. The changes in other branches of trade were unimportant.

The Stock Market continued buoyant yesterday; Money in easy supply, and Gold and Exchange firmer.

Expediting Legislation.—The Legislature is just now having its annual spasm over the appointment of a "Grinding Committee." Toward the close of every Session the same debate is had on the subject—the same struggle is renewed between apprehensive virtue and impatience to secure the passage of bills, and the same result is reached:—the committee is appointed and the work goes on.

So long as our Sessions are practically limited to one hundred days, a "Grinding Committee" will be found a necessity; and it constitutes at once the easiest and the safest mode of expediting legislation, *provided* it is composed of honest, reliable, intelligent and painstaking men. The committees of the Assembly, as of every large legislative body, do all the work and are really responsible for all its action. Business cannot be properly prepared by these committees for the action of the whole body, until some time after the session has commenced; and then, as all the committees are working at once, their reports are made in mass, and hundreds of bills thus go upon the general calendar at about the same time, to be taken up in the order in which they are reported. The general rule is, that every bill must be taken up, discussed, and acted on in committee of the whole Assembly before it can be passed. This works well enough until the close of the session, when it is found that there are scores and hundreds of bills that *cannot be reached* by this process, before the session will expire. It is simply impossible to act upon them all; and it is found to be practically equally impossible for the whole body to select from the mass those on which action is most imperatively required by the public interest; for every member has some private bill of local interest merely, but in which his constituents are more directly interested than in any public bill whatever, and these private bills will of necessity, therefore, be put forward and pressed, to the exclusion of all others.

Now, a "grinding committee" is simply a contrivance to remedy this evil. Its function is to select from the mass of bills upon the general calendar such as may properly and wisely be passed, without going through the Committee of the Whole—and to put them upon their passage accordingly. Of course it has large powers, and if composed of corrupt men, it will unquestionably abuse those powers. But made up of men of the right stamp, and properly restricted in its action, it is perfectly safe, and contributes very largely to the success and efficiency of legislation. We have known "grinding committees" so composed that almost every bad bill having "money in it," was quite certain to go through. But we have known others through which there was not power enough in the State to force a corrupt and injurious measure. Everything, in this matter as in almost every other, depends on the character of the *men*. If they are right, a grinding committee is a good institution; if not, not.

The Relative Promptness of the Different States.

The tabular statement in our last issue, exhibiting the debts and credits of the different States on all the calls made upon them for soldiers, including the last, say what we may of it, is an invidious document. On some States it reflects honor, on others not. The real facts cannot be too plainly presented. The States which are delinquent may shut their eyes to them, if they please, but posterity will not. The record made will stand as long as the Republic stands, and will ever be a traditional glory or reproach. It will be taken as a sure index of the different qualities of the patriotism of the different States, in the time that tried men's souls.

We say it will be taken as a sure index of the relative patriotism, though, in fact, it is not exactly so. Some States have advantages over the others. Much depends upon the energy and skill of the executive authorities of the State, and these widely differ. The relative efficiency of Gov. Seymour and Gov. Morton, of Gov. Parker and Gov. Buckingham, doubtless has something to do with the fact that New-York is about sixty thousand behind, and Indiana only three thousand—that New-Jersey is over fourteen thousand behind, and Connecticut less than three thousand. Still it will not do to draw any general conclusions from this fact, for Pennsylvania and Massachusetts both have excellent Governors, and yet Massachusetts is further behind relatively than New-York, and Pennsylvania than New-Jersey. The Western States have an advantage in having in their population a considerably larger ratio than some of the Eastern States, of young men of military age; but if we attempt to attribute their superior promptness in filling their quotas to that fact, we are at once met by the other fact that the very Eastern States which are most deficient in young men—Maine, New-Hampshire and Vermont—are square up with the West in the prompt furnishing of their complement.

It is indeed a general fact that the more agricultural States are more prompt in supplying soldiers than those which are more engaged in commerce and navigation. We may attribute this in some measure, perhaps, to the fact that agriculture is less remunerative, and consequently affords less inducement to stay at home, and that the extensive use of improved farm implements has released a larger share of the population of such States from close application. But yet, after all, it is questionable whether this advantage is not more than counterbalanced by the fact that the manufacturing and commercial States, possessing many more cities and large towns, have a much larger floating population with no fixed pursuits—the very sort of population which, the world over, is most easily drawn into military life.

We don't believe it possible to find any solution in special causes for the very marked difference between the States in the promptitude of their response to the calls of the General Government. These causes, weigh them as liberally as we may, fall far short of supplying a satisfactory explanation. Coming generations, we may be sure, will make very small account of them, even if they note them at all. They will come precisely to the same conclusion that we ourselves do when surveying the old revolutionary records of the supplies of troops by the different colonies. We make these respective supplies a criterion of the earnestness of the respective colonies in the revolutionary cause. The preëminence of Massachusetts in this regard is a historical fact that will never be forgotten. Mere professions, or even votes, are in reality no test of this earnestness. A man may be quite in favor of the success of the Federal Government over the rebellion. He may sustain it ever so uniformly by his vote, and yet be practically just as far from embarking personally in the military hardships and risks of the war as the most inveterate Copperhead. There is no perfect patriotism but that which constrains a man to fight, if need be, as well as talk and vote for his country. If a man, who is able, will not fight when called upon, we say that his patriotism is of a poor quality. How can we avoid saying the same thing of a State that is able and yet does not furnish its supply of fighters when called upon?

The loyal States are divided into four great divisions—the Eastern States or New-England, the Middle States, the West and the Border States. In examining the table, we find that, previous to the call of last week, the number of soldiers *due* on former calls from the six New-England States was 8,504—from the four Middle States, New-York, New-Jersey, Pennsylvania and Ohio, 100,499—and from the five Border States, Delaware, Maryland, Western Virginia, Kentucky and Missouri, 33,867—while in the seven Western States there was an aggregate *credit of forty-one thousand six hundred and ninety*. Regard being had to the ratio of the population, the *deficiency* in the Border States is about *twelve and a half* out of a thousand; in the Middle States about *ten* out of a thousand; in New-England about *two and a half* out of a thousand; while in the Western States there is a positive *overplus* of nearly one in a thousand.

This exhibit is most extraordinary. But extraordinary as it is, it cannot be contradicted. The data are official; the results are as certain as arithmetic. What do they mean? Is it indeed true that there is this gradation in the quality of the patriotism of the different divisions of the so-called loyal part of the country? Must we admit that the West is first in the earnestness of her devotion to the old flag, New-England next, the Middle States next, (and next, too, with a long interval,) and the Border States last? It will go hard, but that history will write that same thing of us. There is no possible way for New-York and her sister Central States to avoid it, but in making amends for their comparative backwardness in the past, by redoubled exertions in the future.

City Railroads—A New Project.

We see it announced that the Railroad Committee in the State Assembly has decided to report *against* allowing the Harlem Road to lay a track through Broadway. We hope they will also report against any railroad through that great thoroughfare. The truth is, the chartering and building of street railroads in this City is likely to be overdone,—not that they are not all needed, but because they don't answer the purpose. Too many of them block the City traffic, instead of aiding and relieving it. A certain number of them, running across the town as well as up and down, are imperatively necessary; but to devote all the streets to railroads is simply to shut or block up all other kinds of traffic. There is a great deal of traveling which railroads will not accommodate. All the freighting business of the City, which is enormous,—and all the private carriages, which are very numerous and on the increase, require accommodation and are entitled to it; and streets must be left open for their use.

No more street railroads can well be built without causing quite as much inconvenience as they cure. They may benefit, to a certain extent, one class of persons who desire facilities for transit, but they do it at the expense of others just as much entitled to consideration. And yet something must be done to furnish increased means of passing from one end of the City to the other,—for it is perfectly obvious that all the facilities now used are utterly inadequate, and become more and more so every year. Indeed, if every street in the City could be traversed by a railroad, managed as these roads are now, it would still be impossible to keep pace with the growing demand. There is *not room enough* in the streets of the City to furnish all the facilities which the travel and business of the City require.

In some form or other *steam* must be used, sooner or later, to supply the transportation required. It is greatly to the discredit of our City Government that it has always resisted every attempt to render safe and serviceable the use of steam as a motive power through the streets of the City. Quite likely there may be valid objections to its introduction in any form which has hitherto been proposed. But certainly we have mechanical ingenuity enough to overcome any obstacles of a merely mechanical nature to the use of a force which has displaced horse-power everywhere except precisely where it is needed most.

A new project has been started which deserves public attention in this connection; it is that of an *underground railroad* from the Central Park to the Battery,—on which trains shall be run by steam,—having stations at convenient distances, and making the whole distance in twelve or fifteen minutes. The scheme will, doubtless, at first strike the public as chimerical,—yet a very little reflection will correct this error. Indeed, an underground railway in London, which has been in successful operation for nearly a year, proves at once that the project is perfectly practicable, both in the construction and working of the road. That road, which is nearly five miles long, has proved a splendid success. The tunnel is carried under the streets and houses,—passing beneath all the cellars, sewers, gas-pipes, &c.; it is twenty-eight feet in width, wide enough for three tracks, is well ventilated, drained and lighted, and is decidedly the most popular and comfortable, as it is the most successful, of all the means of transit provided for the City of London. Its stock, which began in the market at nothing, is now selling a good deal above par.

We see that notice has been given in the Legislature of a bill to charter a company which proposes to construct a similar underground road in this city. We presume that it has been applied for by a number of gentlemen, comprising some of the wealthiest and most influential of our citizens, who have had this project for some time under consideration, and who are prepared to enter upon its execution as soon as the necessary authority can be procured. It was first brought to their notice, we belive, by Mr. H. B. Willson, whose connection with public works of the kind made him familiar with the idea of such a road. They have had very careful surveys made by a competent engineer, which show that the work is perfectly feasible—that the tunnels could be made without disturbing in the least any of the drains or pipes now laid down—that its cost would not be over six millions of dollars, and that it could not fail to furnish more and better accommodation to a very large portion of our citizens than any other mode of public conveyance.

We hope the Legislature will act in this matter with an intelligent and liberal regard for the interests of this City. The magnitude of the project, and the character of the men who have taken it in hand, alike entitle it to their careful and friendly consideration.

The Irrepressible Missourians.—The House of Representatives was yesterday the scene of another of those terrible rows between the Missouri members, which have so frequently disgraced the present session of Congress. This time it was Blair *vs.* McClurg, and the language and epithets they applied to each other were of a nature that must astound respectable people. Two weeks ago yesterday, McClurg consumed two hours in abusing Blair for a speech abusing McClurg, delivered by Blair a week or two before; and between each of these great periodical jousts there has been a ceaseless series of bitter, though thus far bloodless, contests.

These Missouri politicians—Charcoals, Claybanks and Copperheads—are a weariness to the whole country. Not content with transferring their war from their own State to this City, which they did some months ago, they have carried it into Congress, and its walls have scarcely ever ceased to ring with denunciations of one faction by another. As they cannot find any worse epithets than those they bandied yesterday, we hope they will now stop wasting the time which ought to be devoted to useful legislation or statesmanlike discussion. If they must abuse each other, and if they must use the National Capitol for the purpose, we hope Congress will set apart the nights for their service, turn off the gas, and let them roar.

Impotent Bluster.—It seems that poor old Gen. Price, who has not been heard of since he was so badly whipped by our negro troops at Helena, last Summer, again threatens to take the field. He has issued an address to his men, promising soon to lead them against their "cowardly and boasting foes," and prophecying that he and they will retrieve past reverses, reoccupy lost territory, &c. Gen. Price should not talk in this style. He cannot possibly do what he says he will do. He is stationed somewhere in the southern part of Arkansas with a small force; but it matters little whether his force be large or small. We hold firmly the line of the Arkansas River with our garrisons and gunboats, and that forms a sufficient barrier against all the rebels south of that stream.

The hero of Lexington has been sufficiently unfortunate in his military career to be appointed Chief of Staff to Gen. Bragg.

AMUSEMENTS.

Photographiana.—At Niblo's Saloon, this evening, Mr. and Mrs. Watkins give the first part of their entertainments, entitled "Photographiana." Eccentric sketches of character, hits at society, music, &c., are on the programme.

Concert for the Fair.—Another concert is given this evening, by the Juvenile Choir and the Old Folks, at Special Police Headquarters, Jefferson and Water streets. The proceeds go to the Seventh Precinct Police, to make part of their contributions to the fair. The citizens of the precinct should aid in making the concert a success pecuniarily; they should buy tickets whether they go or not.

A Sacred Concert.—A grand sacred concert, of which Mr. William Berge will be the organist and conductor, will be given at the Madison-avenue Baptist Church, corner of that avenue and Thirty-first-street, on Thursday evening. Besides Mr. Berge, the services of Messrs. Thomas and Geary and Mrs. Mozart, Mrs. Barclay and Mrs. Colver have been engaged, and Rossini's "Stabat Mater" will be performed. The concert is for the benefit of a mission school, the object as well as the merits of the artists tending to attract a full audience.

The Hippotheatron.—This establishment continues as a centre of attraction. The wonderful performances of the trained dogs and monkeys draw and delight large audiences, while the admirable performances in the ring satisfy all the curiosities of the circus lover. The entire respectability of the Hippotheatron justifies the favor in which it is held. The afternoon performances are for the special benefit of ladies and families.

Musical.

Academy of Music.—Mr. Maretzek's Boston season will close on Saturday next, and on the following Monday the *impresario* opens at our Academy. The opera selected for the occasion is "Faust." Subscribers can procure their seats, &c., to-day—the ticket office opening for that purpose. On Friday the regular sale of tickets commences.

We are glad to hear that Mr. Maretzek's season in Boston has been good.

THE OHIO DEMOCRACY.

Vallandighamism Rampant—Nomination of State Officers and Convention Delegates—No Support for the War for the Union.

Columbus, Ohio, Wednesday, March 23.

The Democratic State Convention met here to-day, and organized by the election of George Rex as President, after considerable confusion and squabbling by Vallandigham men.

The following delegates to the National Convention were elected: T. M. Allen, Geo. Pendleton, Allen G. Thompson, Rufus P. Ranney. Two hundred and eleven votes were cast by Vallandigham men, and 213 votes were necessary to a choice.

Geo. E. Pugh and Thos. W. Bartley were chosen Senatorial electors on the Presidential ticket.

Resolutions were adopted opposing the prosecution of the war for subjugation; that the mob spirit that is now abroad is the result of the violation of the Constitution by the party in power; that the tyranny of the present Administration has sown the seeds, and we are now reaping the harvest of crime.

The following nominations were made for State officers: W. W. Armstrong, Secretary of State; Judge P. Van Trump, Supreme Judge; M. C. Whitely, of Hancock, for the short term; L. D. Critchfield, Attorney-General; W. S. V. Prentiss, Comptroller of Treasury; A. S. Ramsey and H. S. Barney, School Commissioners.

The Middle Department.

GEN. LEW. WALLACE ASSUMES COMMAND.

Headquarters Middle Department,
Eighth Army Corps,
Baltimore, Md., March 22, 1864.

General Orders, No. 16.—In obedience to General Orders No. 97, War Department, A. G. O., March 12, 1864, I hereby assume command of the Eighth Army Corps, and of the Middle Department, exclusive of Fort Delaware. The public will join me in acknowledging the zeal and rare ability shown by my predecessor, Brig.-Gen. Henry H. Lockwood, in the management of the affairs of this department. The department, as I am painfully aware, is crowded with perplexities, and for that reason I pray all good men residing in it to unite and give me their earnest support, more for their own welfare than for mine.

LEW WALLACE,
Major-General U. S. Volunteers.

Official—Samuel B. Lawrence, A. A. G.

The Broadway-Harlem Railroad Bill.

Albany, Wednesday, March 23.

In the Senate to day a unanimous report was made by the committee against the Broadway-Harlem Railroad Bill. Subsequently a motion was made to lay the report on the table, which was carried by a vote of twenty-two yeas to one nay. Several of the Senators who voted for the motion stated that their vote would not bind them to support the bill, as they were opposed to it.

The bill introduced by Mr. Ingraham in the Assembly, confirming the Common Council Broadway grant to the Harlem Railroad, is precisely the same as that reported against in the Senate to-day.

The steamer, on leaving Memphis, learned that a block of twenty buildings, used as commissary storehouses, had fallen in, burying beneath the ruins about forty negroes and from five to six soldiers who were guarding the buildings.

The steamer *Von Phul* passed up for St. Louis today, with the Fifth Illinois Cavalry, (veterans,) en route home on furlough.

DEPARTMENT OF THE SOUTH.

Affairs at Jacksonville—Unsuccessful Attempt to Surprise our Pickets at Port Royal Ferry—A Movement Against Seabrook Island—Miscellaneous.

From Our Special Correspondent.

HILTON HEAD, S. C., Saturday, March 19, 1864.

Everything is quiet at Jacksonville. Col. GUY V. HENRY's Light Brigade continues to hold its position in front of the intrenchments. Palatka is still occupied by troops under the command of Col. BARTON. The rebel pickets are near Three Mile Run, while the main force is at Baldwin.

On the night of Friday, the 11th inst., the enemy attempted to surprise our pickets at Port Royal Ferry, but did not accomplish his object. At daylight, Saturday morning, two launches, containing each about fifty rebels and one small field piece, were discovered by our men moving from them and in the direction of the mainland. The pickets gave the alarm, in response to which three regiments marched up to the ferry and came into a fighting position. A few shots were fired at the rebels, but the range was too long to cause any material injury. When the rebels had reached the mainland they brought one of the field pieces into position and fired half a dozen rounds at our force. One of the shots struck a building occupied as headquarters by the Commandant of the pickets. The remaining shots did no damage whatever. It is thought the object of the rebels was to come upon our pickets suddenly and capture them. Our men were too well prepared for them, however, and for that reason they doubtless withdrew.

A force of 400 men from Gen. TERRY's District, under command of Col. GURNEY, of the One Hundred and Twenty-seventh, embarked on board seven transports one afternoon last week, and proceeded to Bull's Bay, which is at the northern extremity of Sullivan's Island. They marched inland a distance of four or five miles, took note of the enemy's position, and returned to Folly Island on the following day. Not a shot was fired. The entire movement was a feint to cover an object which has been successfully accomplished.

On Wednesday night a party of a dozen rebels came down to Seabrook Island in a boat, and succeeded in capturing a corporal and four men of the Seventy-sixth Pennsylvania Regiment, who were on picket. The other pickets, although they witnessed the capture, could not render assistance, as by so doing they would have abandoned their posts and left our lines exposed. A number of shots were exchanged with the rebels, and it is believed that one or two of the enemy were severely wounded.

The Anglo-Confederate blockade-runner *Sophia*, was recently captured by the United States steamer *Huron* in Altomaha River, Georgia. She was bound from Nassau, and had a cargo of nine tons of salt, a lot of flour, whisky, soda, and other articles. During the past 21 months the *Huron* has taken fifteen prizes and destroyed as many more vessels. Her chief officers are: Commander, FRANCIS H. BAKER, Paymaster, Charles Stewart; Surgeon, Joseph B. Kenney; Masters, Wm. A. Mills, Wm. H. Baldwin, Ensigns, P. O'Connor, Wm. Henderson.

At daylight Saturday morning, four colored refugees—one woman and three men—were picked up in a boat by one of the gunboats stationed up Lighthouse Inlet. They left St. Andrews Parish the night previous, and after rowing nearly three hours, stopped at Jenkins' Plantation for rest and safety. They concealed the boat in some bushes on the bank of a creek, but it was discovered and taken away by rebel pickets. They then secured one of the plantation boats, and rowed into our lines without having been observed by the enemy. On their way down the creek, they noticed two torpedoes, and gave them a wide berth. They report the rebels to have contracted their picket line toward Charleston. A very few troops remained in the city. The refugees had barely sufficient clothing to cover them, and when they arrived at Hilton Head they were generously supplied with both clothing and money. The woman is now employed as cook by Provost-Marshal Gen. HALL. The men are working in the Quartermaster's Department.

Last week, while some men were engaged extracting the combustible contents of a ten-inch shell, at the Ordnance Yard, the shell exploded, severely wounding Sergt. J. H. MARTIN in the arm and hand, JAMES WILLIAMS, of Hamilton's Battery, slightly in the arm, and CORNELIUS DAILY, a civilian, slightly in the back.

On Friday night, Gen. TERRY, who was temporarily stopping at the Port Royal House, was serenaded by the Post Band, under the direction of Prof. INGALLS.

The Barton Dramatic Association gave their opening entertainment at the Union Theatre, Monday night. Every available space was occupied by the audience, which included Gens. TERRY, VODGES and FOSTER, and a large number of ladies. The bill comprised a melodrama entitled, "Robert Macaire," the farce of the "Spectre Bridegroom," and a tableau. The actors are worthy of much credit for the manner in which they performed their parts, taking into consideration the brief time allowed them for preparation. This is a new feature of amusement at Hilton Head, and, we doubt not, it will be encouraged and sustained by the soldiers and citizens. The music was furnished by the Post Band, under the direction of Mr. MURPHY.

The court-martial of Gen. GORDON has been in progress this week. On Thursday afternoon the proceedings were adjourned until Monday next. A number of Generals and Colonels are here, summoned as witnesses.

Capt. WM. W. M. BURGER, Assistant Adjutant-Gen. to Gen. GILLMORE, leaves for New-York on the *Arago*. For the past three weeks he has been in ill health, which he hopes to improve by taking a sea trip. He will remain North but a few days. WHIT.

MISCELLANEOUS NEWS.

A NEW REBEL IRON-CLAD.

(*From the Free South, March* 17.)

On Thursday, the 10th inst., a new iron-clad war steamer was launched successfully at Charleston. She is called the *Ashley*. This increases the iron-clad fleet in Charleston harbor to seven vessels. She is described as a formidable vessel, with many improvements on former efforts of the Confederates in naval architecture. If our fleet remains a few more months inactive the offensive may be assumed by the rebels, and our blockade broken in a manner that will put us to open shame. That they have officers and men capable of the most daring enterprises we have proof enough in the attack upon the *Keystone State* and *Mercedita* last year, the attempt to blow up the *Ironsides*, and in the sinking of the *Housatonic*.

SUICIDE OF A SOLDIER.

Private DANIEL TRUST, a German recruit in Company C, New-York Volunteer Engineers, committed suicide early on Sunday morning. He was in a working detail near DRAYTON's plantation, and was missed from the camp at roll-call. On search being made, his body was found suspended from a sapling within a stone's throw, to which he had hung himself with his cravat. The weight of his body had caused the sapling to break, and it was bent so his feet touched the ground. Deceased was sent to the surgeon about a month ago, insane, but a few days after returned to duty apparently cured. On the day previous to the suicide he was noticed to act very strangely. He had recently received news that his wife had absconded, carrying with her all his money, and this is the supposed cause of his insanity. We learn that another soldier in the same regiment, recently committed suicide on account of the same woman.

SUSPENSION OF LABOR AT FORT CLINCH.

Owing to the non-appropriation of the requisite funds by Congress, work has been suspended upon Fort Clinch, at Fernandina, Fla. Capt. A. F. SEARS, who for the past year has had the direction of the work, has received orders to "close up the concern." His laborers, of whom there were a large number, have reached this post, and entered the service of the Quartermaster.

SUMTER REDIVIVUS.

Recent reconnoissances have proved the possession by the rebels in Fort Sumter of three columbiad guns, mounted so as to command the channel. Reliable intelligence from Charleston has lately been received, confirming this fact. It is also known that the rebel garrison is 250 men.

DESERTERS.

A party of rebel deserters recently brought into the Provost-Marshal's office, at Hilton Head, a torpedo which, as a working party, they had been detailed to lay. At the head was an orderly-sergeant.

LETTER-BAG FOR EUROPE.—A ship's letter-bag will be made up for the *City of Baltimore* sailing for Liverpool to-day, so as to enable merchants to reply to their letters per *City of Washington*. The letter-bag will leave the office of the company, No. 15 Broadway, at 11 o'clock A. M.

RECONSTRUCTION IN ALABAMA.

An Adjourned Union Meeting at Huntsville—A Speech by Ex-Senator Clemens—"Sprinkling Blood" on the Face of the Alabamians.

On March 13 an adjourned meeting of the citizens of Madison County, Ala., was held at Huntsville. Hon. JERE CLEMENS, Ex-United States Senator, stated the object of the meeting as follows:

This is an adjourned meeting from that held at this place on Saturday last, of which the country people did not have sufficient notice to attend. The object of the meeting was explained at the Saturday meeting. I will restate it for the benefit of those who were not then present. *The object of the meeting is the restoration of civil government—to bring us law and order—to secure peace.*

We were hurried into revolution against our earnest protest. This people were for the Union. Madison County gave 1,800 majority against secession, yet we were carried away without support. We had no arms. BUCHANAN was in the Presidential Chair. Day has at last come, thank God, and we can say that we take shelter under the Stars and Stripes.

We propose to call upon the Governor of the State to convene a convention, for the purpose of rescinding the Act of Secession. How far the Governor will pay respect to our action, I cannot say. To be candid, I think he will pay it none. In calling upon him, we avoid the charge of precipitancy, and follow the constitutional method. After that we have the right to call upon our inherent rights—to act for ourselves. We have the right to assemble in our capacity as citizens and reëstablish civil government for ourselves.

Falsehood, fraud and crime took us out of the Union. They told us that secession was necessary to save Slavery. During the ten years preceding the rebellion, the State of Alabama had not lost ten slaves a year. *We had rebellion, and the consequence now is that there is not one man in the State of Alabama who can say that he has the title to a single nigger.* Not all of us have a title to anything. The practical result is emancipation. Cotton they said was king—would secure us recognition and independence. The result is, Confederate money is worth five cents on the dollar. They said that civil liberty and State rights would be secured by secession. The first act of the Confederate Congress deprived the people of the right to select their President. If a man owned twenty negroes, he was excused from military duty. If a man had ten starving children, he was not. The man who owned the negroes could stay at home with his wealth; the man with starving children must leave them and go to the battle-field.

You and I may have had some fear of the success of the Confederacy. *Thank God there is now no prospect of its succeeding.*

The following resolutions were reported in addition to a series submitted at the previous meeting:

Resolved, That we believe that the effort to destroy the old Government and erect a separate nationality, has proved the ruin of the rights and liberties of the people. We therefore call upon the Governor of the State of Alabama to convene the Legislature, that it may call a convention, in order that it may provide some mode for the restoration of peace and the rights and liberties of the people.

Resolved, That the longer the war has continued, the more imminent have become the dangers to the liberties of the people. We therefore invite the citizens of other counties in the State to unite with us in this call upon the Governor, and suggest the first Monday in June as the time for the holding of that convention.

Hon. O. C. HUMPHREYS, one of the ablest lawyers in the South, and a delegate to the Charleston Convention, spoke in support of these resolutions. He said:

Alabama should at once rescind the ordinance of secession. I am confident we shall then have as many years for getting good riddance of this institution as we want. As far as the execution of military orders on the subject is concerned, the officers and men of the Federal army are bound to carry them into effect. I am in favor of such political action of the Government, as will obviate the necessity of such orders. Do not misapprehend me. *I believe the institution of Slavery is gone as a permanent thing—overthrown by the action of the Southern States.* I believe, in case of a return to the Union, we would receive political coöperation so as to secure the management of that labor by those who were slaves. There is really no difference, in my opinion, whether we hold them as absolute slaves, or obtain their labor by some other method. Of course we prefer the old method. But that question is not now before us.

Judge HUMPHREY then discussed the attitude of foreign Powers, particularly France, and of the radicals of the North, and closed thus:

What we want now is such political action as will put Alabama right where she belongs—back in the Union. Have your boys not struggled long enough, suffered enough, fought on enough battle-fields for you to take some action? I do not believe that a restoration of the Union will be humiliating to the South. If we take action in the right way we will secure at once peace, law and order.

When I returned from the Charleston Convention in 1860, the people met in this court-yard. Speaking to you now to-day reminds me of that meeting. There were then upon the minds of some of us apprehensions of a not far distant trouble—of the horrors of civil war. Disunion followed, war came, and ruin swept over our Southern land. Our fields are devastated, buildings burned, our sons have fallen in battle, and the land is full of widows and orphans. What has disunion to weigh against this desolation?

The resolutions were then unanimously adopted.

Before adjourning the meeting, Mr. CLEMENS said:

Before I declare this meeting adjourned I wish to state a fact in relation to the commencement of the war.

Some time after the ordinance of secession was passed, I was in Montgomery and called upon President DAVIS, who was in the city. DAVIS, MEMMINGER, the Secretary of War, GILCHRIST, the member from Loundis County, and several others, were present. As I entered the convention ceased. They were evidently discussing the propriety of firing upon Fort Sumter. Two or three of them withdrew to the corner of the room, and I heard GILCHRIST say to the Secretary of War: "It must be done. *Delay two months and Alabama stays in the Union. You must sprinkle blood in the face of the people.*"

Postponement of the Metropolitan Fair.

In consequence of the impossibility of completing the arrangements for the opening of the Metropolitan Fair on the 28th inst., it has been determined to postpone the inauguration until the 4th of April. Letters have recently been received from Europe stating that a large number of contributions are en route for this country, many of which cannot reach New-York before the 4th. The donations received have been far more extensive than was anticipated—making it necessary to considerably change many of the original arrangements determined upon for the display of articles for exhibition. The contributions from the country and neighboring States are extensive. The Otisville Mining Company, of New-York, have presented a ton of their richest specimens of quartz. The value of the gift, with transportation expenses, (defrayed by the company,) is estimated at eight hundred dollars. Delhi, a small town in Delaware County of less than 1,000 inhabitants, sends $200 in money and $70 worth of produce. Geneva contributes $500. Buffalo and Rochester have intimated their intention to send valuable "tables"; also Ulster and Dutchess Counties. Harlem has contributed liberally. The cities and many of the villages of Connecticut have sent donations; conspicuous among the number is Hartford. The City authorities have consented to the closing of Union-square during the holding of the Fair; and the Central Park Committee have offered the use of their tents, which will be erected in Union-square for the use of musicians and such other purposes as they may be adapted to. The Philharmonic Society and several bands have volunteered their services. The music at the fair will be the best ever furnished on any occasion in this City. A large number of things are wanted for the Knickerbocker Kitchen, especially an antique dresser. Any person having one will oblige the Committee of Arrangements by forwarding it to the receiving rooms on Fourteenth-street.

NEW-ENGLAND FIRE INSURANCE COMPANY, HARTFORD, CONN.—This company, we observe, has established a Branch Office in this City, at No. 139 Broadway, under the management of THOMAS CONKEY, Esq.—a gentleman well and favorably known to our business community, in connection with the Metropolitan Fire Insurance Company. The New-England is ably managed, upon the "Conservative" theory. We take pleasure in indorsing the remarks of the *Insurance Monitor* for February, concerning this company, and quote the concluding paragraph:

"The Directors are among the first business men of Hartford, capitalists and merchants, selected with reference to ability and soundness. Every loss has been promptly paid. The company is in all respects worthy of confidence. GEO. D. JEWETT is the President, and R. A. JOHNSON the Secretary."—*Insurance Monitor.*

"Neighbor Jackwood" was a popular book, * * bringing in some thoroughly New-England characters with humor and originality. The same characteristics are displayed in the new book "Cudjo's Cave." The scene of the story is laid in East Tennessee. * * It is startling and interesting, a vivid picture of the effects of secession in East Tennessee. *Boston Advertiser.*

Mrs. Mary J. Holmes, the Popular American Authoress, commences a new Story in the NEW-YORK WEEKLY, now ready.

Economy Should be Practiced by Everybody in all things. One dollar expended now in purchasing a bottle of "Jayne's Expectorant," by those troubled with a slight cough or hoarseness, or sore throat, may save the expense of a doctor's bill. A neglected cough often ends in consumption. A slight inflammation of the lining of the wind tubes, the usual symptoms of which are a sore throat and a pain in the breast, will soon lead, through want of attention, to bronchitis. A day's delay may entail months of suffering. Let the afflicted try at once "Jayne's Expectorant." It is a standard remedy, and its curative powers have been tested by thousands of persons who have recovered their health by its use. The Expectorant, and all of Dr. D. JAYNE & SON's Family Medicines are sold by KITCHEN TYLER & Co., No. 141 Chambers and No. 1 Hudson sts., and by Druggists generally.

One Spoonful of the Magic Dry Soap will do an ordinary washing. It is the great discovery of the age. Price 30 cents a bottle. For sale by all the druggists and grocers.

NEW FEATURES IN THE HAT TRADE.
SPRING CIRCULAR.

The facilities afforded by the largest and most convenient hat store in America having been turned to the best account this Spring by the introduction of new improvements, the subscriber is enabled to present an assortment of over

ONE HUNDRED STYLES,

each style occupying a separate compartment, and the whole comprehending the most complete reflex of the hat fashions of the world, for all ages and both sexes, that has ever been exhibited in this country.

Instead of going into details, which, after all, would convey but a feeble idea of the variety of his stock, he invites the public to inspect it. If there is anything fashionable, tasteful and elegant in the way of out-door coverings for the head which it does not include, he is not aware of the omission; and, should such an omission exist, it is sure to be supplied, as he is continually on the qui vive for dashing and attractive novelties.

The departments of the establishment are thoroughly systematized, and it is believed that, as a REPRESENTATIVE HAT-STORE, it is not surpassed anywhere, either at home or abroad. GENIN, No. 513 Broadway.

GRAY'S PATENT MOLDED COLLARS
have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar; they are as smooth inside as outside, and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on both sides.

These collars are not simply flat pieces of paper cut in the form of a collar, but are molded and shaped to fit the neck.

They are made in "Novelty" (or turn-down) style, in every half inch size from 12 to 17 inches, and in "Eureka" or Garotte) from 13 to 17 inches, and packed in "solid sizes" in neat blue cartoons, containg 100 each; also, in smaller ones of 10 each—the latter a very handy package for travelers, army and navy officers.

Every collar is stamped
"GRAY'S PATENT MOLDED COLLARS."

WHILE BRANDRETH'S PILLS ARE SO potent for good to diseased bodies, they are harmless as bread. The babe at the breast or the man of ripest years, and delicate females, are certain to recive an increase of health from the use of these Pills, blessed of Heaven.

It has been said by an able physician, that "this medicine always benefits and never injures." Wherein is the superlative quality? The BRANDRETH PILLS have no power or action but upon impure humors in the blood. They seize only the impurities in and around the parts affected by disease; all the parts involved in diseased actions are operated upon, and cleansed from all foulness, and reinfused with "life" by the wonderful curative powers contained and inherent of the most justly famed BRANDRETH'S PILLS.

Millions of people, whose lives appeared to be at the last ebb, worn out by fever's consuming fires, by consumption's invidious advances, by racking torments of inflammatory rheumatism, have been cured by these Pills. These persons are living witnesses, and thousands are residents of every city in America.

See B. Brandreth in white letters is on the Government stamp.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

which are now recommended by the highest medical authorities, and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supersede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They make the weak strong, the languid brilliant,

and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars see circulars and testimonials around each bottle.

Beware of impostors. Examine every bottle. See that it has our private United States stamp unmutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in bulk, is an impostor. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the United States law, and will be so prosecuted by us. We already have our eye on several parties refilling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

PUBLISHED THIS DAY,
THE BOOK OF SPECIAL INTEREST FOR THE TIMES.
A SCRIPTURAL, ECCLESIASTICAL AND HISTORICAL
VIEW OF SLAVERY,
FROM THE DAYS OF THE PATRIARCH ABRAHAM TO THE NINETEENTH CENTURY.
Addressed to
THE RIGHT REV. ALONZO POTTER, D. D.,
Bishop of the Protestant Episcopal Church of the Diocese of Pennsylvania,
BY
JOHN HENRY HOPKINS, D. D., LL. D.,
Bishop of the Diocese of Vermont.

The subject of Slavery has been handled of late by so many writers, that the publishers feel bound to state, briefly, the contents of this volume, which entitle it to general attention.

It commences with a short narrative of the circumstances which led to the publication, including the letter on the "Bible View of Slavery," the protest of Bishop A. Potter, with all the names of the clergy who subscribed it, and the author's reply.

He then proceeds to a sketch of the mode which he set forth, several years ago, for the gradual abolition of Slavery whenever the Southern States should be ready to adopt that measure, contrasting it with the principles of ultra-abolitionism, to which he is utterly opposed; and discusses the objections which certain anonymous writers have published against his pamphlet.

The character of the author is a sufficient warrant that ample justice is done to every branch of this important subject, and the publishers feel confident that the work will be regarded as a standard book by every intelligent and candid reader.

GEN. McCLELLAN'S REPORT.
SPECIAL NOTICE.
OFFICE SUPERINTENDENT PUBLIC PRINTING,
WASHINGTON, March 7, 1864.

To the Editor of the Army and Navy Journal:

SIR: In your article in relation to the charge, made by the publishers of the private edition of Gen. McClellan's Report, that important matter had been omitted in the Government edition, you say the only omission is the following:

"It will be seen, from what has preceded, that I lost no time that could be avoided in moving the Army of the Potomac from the Peninsula to the support of the Army of Virginia; that I spared no effort to hasten the embarkation of the troops at Fort Monroe, Newport's News and Yorktown, remaining at Fort Monroe myself until the mass of the army had sailed; and that after my arrival at Alexandria, I left nothing in my power undone to forward supplies and reënforcements to Gen. Pope. I sent with the troops that moved all the cavalry I could get hold of; even my personal escort was sent out upon a line of the railway as a guard, with the provost and camp-guard at headquarters, retaining less than one hundred men, many of whom were orderlies, invalids, members of bands, etc.; all the headquarter teams that arrived were sent out with supplies and ammunition, none being retained even to move the headquarters camp. The squadron that habitually served as my personal escort was left at Falmouth with Gen. Burnside, as he was deficient in cavalry.'

Now, had you read page 185 of the report, as printed at this office, you would have found this very paragraph, put in at the right place, as shown by the context, so that no omissions were made, either by the War Department in furnishing copy, or by this office in printing it.

Yours, &c., JOHN D. DEFREES,
Superintendent of Public Printing.

The pretended omissions will be found at page 616 of the Rebellion Record edition, which is an exact copy of the Government edition, and is complete in one volume, with maps and plans of

The Defences of Yorktown and Approaches to it during the Siege of April and May, 1862.	Battle of Gaines' Mills. Battle of Turkey Bridge. Battle of Malvern Hill. Battle of Mechanicsville.
Rebel Works and Battle-Field at Williamsburgh.	The Seven Days' Contests, etc., etc., etc.

Price 50 cents. An edition in cloth, with steel portrait, price $1.

Parents, and all interested in education, aware of the value of poetry as an element of the best culture, have felt the want of a more extensive and various collection of poetical pieces, suited to different ages, than is at present accessible—a volume which, while it retains the old favorites, shall, by introducing new and choice though less known poems, embrace a more abundant variety. The present selection is intended to meet this want. Preference has generally been given to lively and striking poems. Picturesque, descriptive, narrative and domestic pieces have been particularly sought, as they generally find their way readily to young hearts.

NOTICE TO THE FIRST AND SECOND MORTGAGE BONDHOLDERS OF THE PITTSBURGH, FORT WAYNE AND CHICAGO RAILWAY COMPANY.—The Board of Directors of the Pittsburgh, Fort Wayne and Chicago Railway Company have requested the undersigned to call meetings of the First Mortgage and Second Mortgage Bondholders, in pursuance of the provisions of the deeds of trust, for the purpose of considering certain modifications of the present financial system of the company, to which the assent of a majority in interest of each of those classes of bondholders by a vote at a meeting is necessary. The principle of the proposed measures was submitted to the annual meeting of the corporation held at Pittsburgh on the 16th inst., at which were represented a majority of the stockholders and of each class of the bondholders, and was unanimously approved.

The undersigned, therefore, in exercise of the authority conferred upon them by Article 12 of the First and Second Deeds of Trust, give notice that
MEETINGS OF THE FIRST AND SECOND MORTGAGE BONDHOLDERS
will be held at the banking house of Winslow, Lanier & Co., No. 52 Wall-st., in the City of New-York, on THURSDAY, the 7th day of April, 1864, at 11 A. M., for the purpose of considering the aforesaid measures.

At such meetings the bondholders, if registered, may vote in person or by proxy.

Registration on the Voting Register can be made by any holder at the office or agency of the company, at the banking house of Winslow, Lanier & Co., where the books are now open for that purpose, *on presentation by the holder of his bonds, or on his filing the written order of the person last registered as the holder.*

The registration was originally in the names of the persons to whom the bonds were issued. In cases in which the bonds have since changed hands, the present holder can vote only by registering himself, or upon the proxy of the person last registered.

A general attendance of the bondholders is earnestly requested, as well to act on the questions aforesaid, as to perfect the organization contemplated in Article 12 of the Deeds of Trust.

The meetings of the First and Second Mortgage Bondholders will be held separately, but at the same time and place, and the holders of the Third Mortgage Bonds are invited to be present, though their action is not required by the Trust Deeds.

The resolutions adopted at the annual meeting, and the resolution of the Board of Directors requesting a call of meetings of the bondholders, are subjoined.

JOHN FERGUSON, } Trustees for the First and
SAMUEL J. TILDEN, } Second M'tge Bondholders.

RESOLUTIONS

Recommended by the Board of Directors to the Stockholders for adoption at the Annual Meeting, March 16, 1864.

Resolved, That it is expedient that expenditures for construction, equipment and objects pertinent thereto, involving new capital, should in the main be provided for by an increase of capital stock of the company.

Resolved, That the increase of capital stock should be made solely for the purpose of building and completing a double track, or such part thereof as may be expedient, and for equipping the road and providing such additional rolling stock, machinery, appurtenances and other facilities as may be necessary to properly do all the business which may offer, and for no other purpose, and should only be issued from year to year in such amounts as the stockholders at their annual meetings may decide upon. Their decision shall be based upon detailed estimate, made by the Board of Directors, of the amount of money necessary for the work of the year, and that the new issue of stock shall only be sold after public notice.

Resolved, That the increase of capital for 1864 shall not exceed $3,000,000.

Resolved, That the stockholders hereby recommend, and, as far as may be necessary, authorize the Board of Directors to make such agreement or arrangement with the holders of the bonds under the trust deeds as will enable them to increase the capital stock, as indicated in the preceding resolutions.

Adopted unanimously by vote of $4,563,000 out of $5,500,000 of stock; $3,729,500 out of $5,250,000 of first mortgage bonds; $3,766,000 out of $5,160,000 of second mortgage bonds, and $1,525,000 out of $2,000,000 of third mortgage bonds, $400,000 not voting because not registered.

Resolution adopted by the Board of Directors this day:

"*Resolved,* That the Trustees under the mortgages, Samuel J. Tilden and John Ferguson, be and they are hereby requested to call, at the earliest moment possible, a meeting of the bondholders, in the City of New-York, to act upon the resolutions adopted by the stockholders at their Annual Meeting in the city of Pittsburgh, on the 16th day of March, 1864, and to obtain, if possible, the assent of the bondholders thereto.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR. WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. DR. WARD, from the hospitals of London, Paris, and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health call: it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 50 Lispenard-st. Call, send, or write.

SPEEDY RELIEF AND SURE CURE GUARANTEED.—Therefore, let no false delicacy prevent your immediate application to Dr. POWERS, Dr. POWERS, successfully consulted with Dr. WARD No. 50 Lispenard-st. Conducted on the plan of the Hospital des Venerieus, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa, gleet, strictures, ulcers, tumors, cancers, secondary and constitutional syphilis, diseases of the kidneys, &c., &c. Thirty years of extensive practice, exclusively devoted to the treatment of those complaints, enable us to effect cures in cases where others of less experience have failed. Dr. Powers' Essence of Life restores the vigor of youth in four weeks. This marvelous agent restores manhood to the most shattered constitution—physical disqualifications, impediments to marriage, speedily cured. The men to consult, Drs. Ward and Powers, the champions and kings of venereal diseases, possessing the most certain, speedy and only effectual remedies in the world. Those who have used their preventives are never without. Send for a circular. To Ladies.—Dr. Powers' Periodical Drops are a safe and certain remedy for monthly irregularities. The above remedies sent by mail. The afflicted should read their circular. Postage free, on receipt of a stamp. Cures warranted.

$1,000 FORFEITED AND NO CHARGE UNLESS CURED.—Dr. Hunter's Red Drop cures venereal diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury; but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless this remedy is used. This is what he claims for it; and what no other will accomplish. Its value in this respect has become so well known that scientific men, in every department of medical knowledge, begin to appreciate it; for hardly a week passes that he is not consulted by druggists, chemists and physicians in regard to some pitiful patient who has exhausted the whole field of the faculty, and still the disease will appear. It is $1 a vial, and cannot be obtained genuine anywhere but at the old office, No. 3 Division-st., New-York City, since 1834. Eight separate rooms and a private entrance. A ten cent bill will secure the Monitor of Health by return mail.

CAUTION TO LADIES, SINGLE AND MARRIED.—Every woman truly a lady, has an aversion to call in or upon a physician, in respect to complaints peculiar to her sex. Besides the shock to her delicacy in consulting persons, most of whom know nothing of her ailments, she incurs worse than useless expense in buying injurious pills, drops, potions, &c. No lady need call upon the numerous doctors with whom to uselessly spend her means, as "The Married Womans' Private Medical Companion," price $1, by A. M. Mauriceau, Professor of Diseases of Women, designed especially for the married or those about to be married, points out the mode of treatment to remove obstructions, irregularities, or her other ailments, as mother or wife, with the causes and symptoms, and what best to do. MUSICAL.

CHICKERING & SONS

MANUFACTURERS OF GRAND, SQUARE, AND UPRIGHT PIANO-FORTES, No. 652 BROADWAY.—The superiority of these instruments has of late been amply demonstrated by the voluntary testimony of the foremost artists of the day, who claim for them excellencies of tone and workmanship hitherto unobtained by any other makers.

Mr. GOTTSCHALK's constant use of the NEW SCALE CHICKERING GRAND PIANO-FORTES has severely tested their musical qualities, and resulted in establishing the justice of the very flattering estimation in which they are held.

STEINWAY & SONS'

GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.

The principal reason why the Steinway Pianos are superior to all others, is, that the firm is composed of five practical pianoforte makers, (father and four sons,) who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. MASON & HAMLIN'S CABINET ORGANS, FOR FAMILIES, CHURCHES AND SCHOOLS—Recognized by the musical profession as greatly superior to Harmoniums, Melodeons and all other small organs. [See our illustrated catalogue for explicit testimony to their superiority, from a majority of the most eminent organists in America.] Prices, $85 to $500 each.

CAUTION TO PURCHASERS.—The great reputation which our Cabinet Organs have obtained, and the extensive demand for them, have induced dealers to advertise, in some cases, quite different instruments as Cabinet Organs, and in others to represent to purchasers that Harmoniums and other reed organs are the same thing. This is not true. The excellences of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their workmanship, but also, in large measure, of essential differences in construction, which, being patented, cannot be imitated by other makers. From these arise their better quality and volume of tone and unrivaled capacity for expression. Warerooms in New-York, No. 7 Mercer-st.

NEWS FROM WASHINGTON.

SPECIAL DISPATCHES TO THE N. Y. TIMES.

WASHINGTON, Wednesday, March 23.

THE ARMY REVIEW POSTPONED.

The proposed review of the army of the Potomac, to-morrow, will not take place. Gen. GRANT, who arrived here this morning, proceeds at once to the front. The reorganization of the army will be quietly and speedily consummated.

GEN. SMITH CHIEF OF STAFF TO GEN. GRANT.

Gen. W. F. SMITH, whom the Senate confirmed as Major-General, to-day, will have a command in the East next to Gen. GRANT. His position will be really Chief of Staff to the Lieutenant-General, and as such will direct the movements of whoever may be nominally in command of the Army of the Potomac. It is understood that Gen. GRANT, after reorganizing the army to his satisfaction, will give the rebels a taste of its fighting qualities before he returns West.

DISGRACEFUL PASSAGE IN THE HOUSE.

The House to-day was made the theatre of one of those exciting scenes which recall the obsolete days of the Slave Democracy. Col. MCCLURG, of Missouri, on obtaining the floor, proceeded to make an onslaught upon FRANK BLAIR, in which sundry personalities and abusive epithets were so conspicuous as to bring down the Speaker's hammer calling him to order. BLAIR followed in an excited and savage style of elocution, pronouncing the documents triumphantly produced by MCCLURG to be forgeries, and stigmatizing his colleague as a liar and scoundrel. Members rushed frantically between the excited disputants, and bones were saved whole. No duel is likely to follow.

THE NEW FIVE-FORTIES.

Secretary CHASE to-day issued orders to the National Banks throughout the United States, which have been designated depositaries, to receive after to-morrow, subscriptions to the new five-twenty bonds. The necessary instructions relative to this matter were dispatched some days ago. The department will commence issuing bonds about the twenty-third of April, and expect to be able to deliver them as fast as they are required.

DOINGS OF THE HOUSE MILITARY COMMITTEE.

The House Military Committee had again under consideration, to-day, the question of reimbursing States for moneys expended in calling out the State militia. They finally instructed Mr. GARFIELD to prepare a general bill, providing for the appointment of Commissioners, who are to be empowered to settle all claims arising in the several States upon this subject. They also authorized a bill to be reported allowing ordnance and military storekeepers the rank and emoluments of Captains of ordnance. There are but four of this class of officers in the service, and their pay is totally inadequate to the responsibilities devolving upon them, as they disburse upward of a hundred million of dollars annually.

GEN. SMITH'S CONFIRMATION.

The Senate in executive session yesterday decided to return the nomination of Gen. WM. F. SMITH to the President, on the ground that his commission dated back to July, 1862, and who, if confirmed, would outrank a large number of meritorious officers. The President to-day sent his name back to the Senate, his commission to date from the day of his confirmation.

FROM THE ARMY OF THE POTOMAC.

Information from the front to-day is to the effect that deserters continue to come in daily from the Louisiana regiments. One Lieutenant and four men came in yesterday. They represented that LEE has ordered all wagons to be in readiness for use by April 1. Gen. GRANT'S arrival is looked for with much enthusiasm, and his reception will be both flattering to him and an augury of hope to the country.

A CASE OF MILITARY MEDDLING IN ELECTIONS.

In defending the Government against charges made by certain Copperheads, of military interference in elections, Senator HOWARD to-day, in the Senate, retorted that the only authenticated case of such military interference was that made by Gen. MCCLELLAN in his orders to Gen. BANKS in regard to the Maryland elections in 1861.

THE INDIAN OUTRAGES IN MINNESOTA.

The Committee on Indian Affairs recommend the appropriation of one million of dollars to indemnify the people of Minnesota for losses sustained during the Sioux war.

GEORGE THOMPSON.

Effort is being made to obtain the hall of the House of Representatives for the English orator, GEORGE THOMPSON, to speak in, on April 22.

THE WILKES COURT-MARTIAL.

The Wilkes Court-Martial to-day determined to exclude all reporters, and prevent further publication of testimony. To make such a decision just when the prosecution is about to close its evidence, and the accused to introduce his witnesses, gives cause of complaint to the friends of the Commodore, and is deemed singular conduct.

DISPATCHES TO THE ASSOCIATED PRESS

WASHINGTON, Wednesday, March 23.

MOVEMENTS OF GEN. GRANT.

Lieut.-Gen. GRANT, his Staff and family, arrived here at 7 o'clock this morning, from Philadelphia, in a special train.

THE QUOTAS OF THE STATES.

The table of quotas, published in this morning's papers, is wrong, so far as the numbers to be furnished by the States of New-York, New-Jersey, Pennsylvania, Wisconsin and Minnesota are concerned, for, as the table itself shows, the deficiencies on former calls are not yet completed. The reason why they are not yet completed is that complete returns of credits to these States have not yet been received. The numbers to be furnished by the other States, as given in that table, are the quotas under the call of March 1, 1864, and deficiencies under all previous calls. The account is made up to the 1st of March, except for the States above mentioned, and is exclusive of veteran volunteers who reenlist in the field.

THE TEN-FORTY LOAN.

The Assistant Treasurers at New York, Philadelphia and Boston were to-day authorized by the Secretary of the Treasury to receive subscriptions for five per cent. ten-forty bonds, authorized by the act of March 3, 1864. Subscriptions will be required to pay the accrued interest in coin or United States notes, or the notes of National Banks, from the first day of March or September, as the case may be, until the day of subscription and payment. If the accrued interest is paid in notes, 50 per cent will be added for premium, until further notice. The interest is payable on bonds not over one hundred dollars annually, in coin. The bonds will bear date March 1, 1864.

THE REVENUE BILL.

It is probable a week will elapse before the Committee of Ways and Means report the amended Internal Revenue Act, which will be thoroughly revised and some of the sections entirely rewritten, in order to a clearer understanding of them. Nothing reliable can be ascertained relative to the change in taxes as the committee have not yet arrived at a definitive result.

CAPTURE OF A BLOCKADE-RUNNER.

The Navy Department has received information of the capture, by the United States steamer *San Jacinto*, of a schooner laden with 132 bales of cotton and two barrels of turpentine. Her master, EDWARD J. NORVILLE, is a citizen of Maryland, and acknowledges having run the blockade. She has no name.

THE PATENT-OFFICE REPORT.

From a report communicated by the Commissioner of Patents to Congress to-day, it appears more business has been transacted than during any year in the history of the Government, excepting '59 and '60. 4,014 applications have been received; 4,170 patents have been granted; 7[illegible] have been filed; forty applications made for extensions, and forty-eight extensions have been granted. Of the issues, forty-eight were to English inventors, thirty-seven to French, and twenty-seven to persons of other nations. The funds on hand January, 1863, were $38,400; the amount received during the year, $195,600; expenses, $189,400, of which $143,000 were for clerk hire. Balance on hand Jan. 1 last, $44,500. Among the naval patents, for which the past year has been distinguished, the improvements in the monitor turrets relate to perfection of construction rather than modification of principle; in the steam ram, to strength of beak; in metallic armor of iron-clads, to the kind of plates, mode of fastening, and elastic cushions between plates and backing.

THE NEGRO TROOPS.

Col. MCCALEB officially communicates the part taken by his command in the late action at Vidalia, La., which resulted in a victory to our troops. Thus a force of 300 colored soldiers put to flight, in great confusion, four or five times their number of the chivalrous enemy, with a loss to them of one killed and five wounded, some mortally, and a number of prisoners. Not a man of my command was hurt. Major CHARLES W. SMITH, commanding a battalion in reserve, informs me that he, with the line officers of his command, were obliged to place themselves before their men with drawn swords, and threaten summary punishment to the first man who would attempt to quit the ranks to join their comrades fighting in the front, "their eagerness to ben gageed being almost irrepressible."

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Wednesday, March 23.

BUREAU OF MILITARY JUSTICE.

Mr. WILSON, of Massachusetts, (Union,) from the Committee on the Military, reported on the House bill establishing a Bureau of Military Justice, with an amendment changing the head officer of the Bureau from Major to Colonel.

THE MESSAGE AND DOCUMENTS.

Mr. ANTHONY, of Rhode Island, (Union,) reported adversely on the proposition to print an additional 5,000 copies of the President's Message and accompanying documents.

The report was agreed to.

REPORT OF THE SECRETARY OF WAR.

Mr. TRUMBULL, of Illinois, (Union,) moved to print 10,000 extra copies of the Secretary of War's report and accompanying documents.

This was referred to the Printing Committee.

EXPENSES OF THE WAR COMMITTEE.

Mr. WADE, of Ohio, (Union,) introduced a joint resolution appropriating $20,000 for the expenses incurred by the Committee on the Conduct of the War.

The joint resolution was passed.

NAVAL DEPOT AT CAIRO.

Mr. TRUMBULL, of Illinois, (Union,) introduced a bill to establish a Depot and Navy-yard at Cairo, Ill. Referred to the Naval Committee.

This bill appropriates $200,000.

ILLINOIS SHIP CANAL.

Mr. TRUMBULL also gave notice of his intention to introduce a bill for a ship canal between Lake Michigan and the Mississippi River.

RELATIVE TO DESERTERS.

The bill in relation to deserters was then called up by Mr. WILSON.

The bill disfranchises those who shall refuse to return to the service at the call of the President in a proclamation to be issued immediately after the passage of this act. Those who reënter the service at such place and time as the President may designate, do so without punishment, except the forfeiture of pay and all allowances due at the time of desertion and during their absence.

Mr. WILSON said that it had been represented that there were 80,000 deserters from our army. He thought this a mistake, and that there were not more than 40,000. Many of these had escaped from the army through hospitals and other means. It was also represented that 28,000 deserters had been returned to the army in the past few months through the Provost-Marshal system; and under this system, in connection with the Enrollment Act, there were now few deserters from the army. He thought there were eight or ten thousand deserters in Canada and the British Provinces. They had gone there when desertion was not considered so great a crime as it is now, and when discipline was slack, and it was comparatively easy to obtain troops. He cited the fact that over 35,090 were absent without leave at Harrison's Landing. He had learned that many of these deserters in Canada were anxious to return and serve their time out. As the war had lasted longer than they expected, they find that living in Canada was much harder than serving their country in the field. He thought if the President would name such places as Detroit, Buffalo, Ogdensburgh, and some points in the State of Maine, where these deserters might come under the terms of this bill, quite a body of men would return to duty.

Mr. CLARK, of New-Hampshire, (Union,) doubted the propriety and power of passing this bill. We had better leave the whole management of these deserters to the President. A bill of this kind would have a great tendency to demoralize the army. There was a great objection on the part of loyal and dutiful soldiers to have deserters put alongside of them. He hoped this question of pardon would be left with the Executive. While these soldiers remain from the ranks, they will roam about with the brand of Cain upon them.

MILITARY INTERFERENCE IN ELECTIONS.

The morning hour having expired, the Senate took up the special order, the bill of Mr. POWELL, to prevent military interference in State elections.

Mr. HOWARD, of Michigan, (Union,) addressed the Senate in opposition to the bill. He considered the bill an extraordinary one in every respect. The bill provided that no officer of the army shall have under his control any troops or armed men within one mile of the place where any general election is held. Did the honorable Senator contemplate the possible effect of such a clause as this? Did he foresee that it might happen that a rebel force in full battle array might be between the radius of one mile from the poll where the election was held? Such a bill as this would, in effect, prohibit our commander from attacking such rebel force while they were in the radius of this magic circle, and would make our polls a sanctuary for armed rebels. It was impossible that a bill containing any such feature could pass the Senate of the United States, as in our whole history there was not a precedent for it. This measure was brought at a time when the country was engaged in a civil war—in a struggle against an immense armed rebellion, which, to crush, calls for the exercise of all the faculty and power of the Government. All those who are loyal at heart, support the old Government, and should receive its protection, while those who look upon the contest with indifference, or at heart wish the success of the rebellion, ought to be treated as enemies. He knew of no other test which could be proposed between the loyal and the disloyal, than the method now devised and carried out at our elections in States containing numerous sympathizers with the rebellion. The Senator from Kentucky brings in this singular measure when the country resounds with the clash of arms and the whole hemisphere is lighted up with the lurid flames of civil war, extending from the Atlantic coast to the Rocky Mountains, and while the hearts of truly loyal men are bleeding for the perpetuity of our Government. He did not deny that there might have been in some cases trifling abuses or misuses of military power at elections, but the reasons must be weighty indeed to demand the passage of such a measure by Congress as the one proposed. He believed the provisions of the bill were plainly obnoxious to the Constitution of the United States. He held that Congress had no power over the subject of State elections, except that it may prescribe the time, manner and places of electing Senators and Representatives to Congress. The power to regulate local elections was one of the reserved rights of the States. He would inquire from what part of the Constitution the Senator derived the power for Congress to punish those who shall violate State laws regulating elections. Yet the Senator who sets himself up as an expounder of the Constitution here, and so often declares that the old fabric is going to pieces like an old raft over a waterfall, now indulges in the legislative experiment of asking Congress to punish every person in the military service who shall interfere with a State election. Congress had no more right to do this than to punish for violation of other State laws. He called the attention of the Senator to the fact that Gen. MCCLELLAN was the first to issue orders in relation to military supervision at elections, and quoted from his order to Gen. BANKS at Muddy Creek, Maryland, of Oct. 26, 1861, instructing him to detail forces at the different polls to protect Union voters from intimidations, and to hold in confinement those who were in collusion with the rebels. He was very happy for once in his life to concur with Gen. MCCLELLAN, and he was proud that the power was sanctioned by that distinguished military leader, the heir apparent of the Democratic party in the next Presidential election.

Mr. HOWARD, without concluding, gave way.

The Senate went into Executive Session, and Adjourned.

HOUSE OF REPRESENTATIVES.

WASHINGTON, Wednesday, March 23.

GOVERNMENT TRANSPORTATION OF CIVILIANS.

Mr. KERNAN, of New-York, (Dem.,) asked unanimous consent to offer a resolution that a committee of five members be appointed by the Speaker to investigate and report to the House, whether civilians in the employ of the Government, in or about Washington, were sent or allowed to go home with the view of voting in State elections; what length of time they were granted leave of absence; whether they drew their pay while thus absent; whether such employés going home were those only who belong to the Republican party, or who promised to vote for its candidates, and whether their transportation, home and back, was paid at their own expense or that of the Government; and that said committee have power to send for persons and papers, and employ a clerk, and have leave to report at any time.

Mr. STEVENS, of Pennsylvania, (Union,) proposed to intrust the inquiry to the Committee on the Conduct of the War.

Mr. KERNAN objected to this.

The resolution, therefore, was not received.

TARIFF ON IMPORTED WOOL.

Mr. SPAULDING, of Ohio, (Union,) introduced a resolution, which was passed, instructing the Committee on Ways and Means to inquire into the expediency of imposing an adequate duty on all wool imported from foreign countries, from and after the 1st of July next, and to report by bill or otherwise.

THE IMPEACHMENT OF JUDGE MILLER, OF WISCONSIN.

On motion of Mr. WILSON, of Iowa, (Union,) the Committee on the Judiciary were discharged from the further consideration of the memorials asking for the impeachment of Judge MILLER, of Wisconsin. He said the case had been carefully considered, consuming a great deal of time in looking over the records, and the result was there was no discovery on which to base a single allegation.

A QUESTION OF PRIVILEGE.

Mr. MCCLURG, of Missouri, (Union,) rising to a question of privilege, by unanimous consent, referred to the remarks which he delivered on the 9th inst., in which he charged that his colleague (BLAIR) had issued an order, while in military command, for smuggling liquors into the army contrary to the treasury trade regulations. His colleague (BLAIR) at that time pronounced the forgery and expressed his surprise that he (MCCLURG) had not seen the denial of the order and invoice, as forgeries. He (MCCLURG) had afforded his colleague (BLAIR) time to furnish the proof of forgery, but this had not been produced, nor could it be. There was a Latin maxim which translated was, "false in one, false in all." Therefore, one falsehood of a witness being exposed, the whole testimony should be rejected as worthless. His colleague (BLAIR) had appeared as his own witness. He (MCCLURG) had exposed his colleague's falsehood and duplicity, and infidelity to the "Radicals" in his statements to President LINCOLN. His colleague denied, on the same occasion, that persons of color had been run off from Missouri, and sold in other States. He, (MCCLURG,) in proof of this quoted from an order issued by Gen. ROSECRANS, dated St. Louis, March 1, in which it is said that justice and humanity forbid the sending away of helpless slaves, and that in order to prevent such practices, and the stealing and selling of such persons, even those who are free, their exportation to other States should not be permitted. He (MCCLURG) had compassion for those in distress, and his colleague (BLAIR) might well be embarrassed, but he (MCCLURG) would give such relief as is extended to criminals after the sentence of condemnation.

Mr. MCCLURG then produced a letter from Mr. CONNER, special agent of the Treasury Department, in relation to the denial of Mr. BLAIR as to the alleged liquor speculation, and charging him (BLAIR) with willful and malicious falsehood.

The Speaker, when these last words had been read, called Mr. MCCLURG to order, as violating the order and decorum required by the rules.

Mr. MCCLURG, resuming, said: His colleague (BLAIR) had characterized the liquor order as a forgery. Now, he (MCCLURG) had had that order "photographed," and copies of it could be procured. Here it is. Justice must be done though anguish were caused to the friends of the condemned criminal.

A SENSATION PRODUCED.

Mr. BLAIR, of Missouri, (Union,) asked unanimous consent to make a request.

Mr. SPAULDING, of Ohio, (Union,) gave notice that after this he would not give his consent to any other gentleman.

Mr. BLAIR then asked that a Select Committee be appointed to investigate the charge made by his colleague, adding: "I pronounce my colleague's (McClurg's) allegations a base and willful falsehood. He has taken the place of the forger and the falsifier, and I here pronounce him a most infamous liar and scoundrel."

This remark produced a most intense sensation in the House.

Many of the members rose to their feet, and persons in the galleries evidently partook of the general excitement.

The greatest confusion and disorder prevailed.

The Chair promptly called Mr. BLAIR to order, as having violated the rules, and appealing to the House to aid him in their enforcement.

Mr. BLAIR—I could not apply other language to an allegation so false, so base, and so utterly contemptible. I ask for a Special Committee to send for persons and papers. If I am guilty, I am unfit to be a Representative in this House, but the guilt will fall upon those who have assumed the charge.

The Speaker requested Mr. BLAIR to reduce his resolution to writing.

Mr. MCCLURG—I have papers now before me, purporting to be written by some of my colleague's (BLAIR'S) staff, which I should be much pleased to lay before the committee. Mr. MCCLURG then addressed himself to Mr. BLAIR, and holding out in his hand a paper, he said: "You will not deny this signature."

Mr. BLAIR, in response, said: "I will not reply to any question from such an infamous scoundrel."

The Speaker again checked the violation of the rules of decorum.

Mr. JAMES C. ALLEN, of Illinois, (Dem.,) preferred to have a committee to examine the charges, and said there was no necessity for any further discussion on the subject at this time.

Mr. MCCLURG again asked permission to send certain original documents to the committee.

Mr. BLAIR then presented his resolution in writing, that a Select Committee of three members of the House be appointed by the Speaker, with power to send for persons and papers, to investigate the charge made by J. W. MCCLURG, of Missouri, against FRANCIS P. BLAIR, Jr., of said State, of a violation of the laws, in the matter of an alleged liquor speculation.

This resolution was passed, after being amended by Mr. STEVENS, of Pennsylvania, so that the committee may also inquire into the genuineness or falsity of the documents which Mr. MCCLURG had produced.

The Speaker then appointed the following Select Committee to inquire into the charge:

Messrs. HIGBY of California, CLAY of Kentucky, and PRUYN of New-York.

THE RARITAN AND DELAWARE BAY RAILROAD.

The House then considered, during the morning hour, the bill declaring the Delaware Bay and Raritan Railroad to be a postal and military route.

Mr. DAVIS, of New-York, (Union,) supported the bill on the ground that the Government required the road for such purposes, and argued to show that the principles claimed by the opponents of the measure were both unsafe and unsound.

Mr. PERRY, of New-Jersey, (Dem.,) opposed the bill, insisting that it was not only unwarranted and uncalled for, but was derogatory to a loyal State, and not required by the necessities of the Government. It was an infringement of right, and simply a Wall-street speculation.

THE NATIONAL BANK ACT.

The House next proceeded to the consideration of the special order, being the bill amendatory of the National Bank Act.

Mr. HOOPER, of Massachusetts, (Union,) explained that this bill made such corrections as the experience and observations of the past year required, and rendered the law so perfect that the State Banks may organize under it, instead of continuing under their State charters. He looked on the system of State Banks as having outlived their day and as being unequal to the present exigences and the demands which this war is making on the country and its financial and monetary systems. If we had relied on the State Banks instead of the Government for our currency, there would have been an inflation of paper which would have overwhelmed and embarrassed the Government. The "legal tender" was the only measure which could be adopted with safety. So far these National Banks had worked well. He expressed the hope that gentlemen would give their support to this bill, which had been so carefully prepared after consultation with those most familiar with the question of the currency.

Without further action the House, at 4:20 o'clock, adjourned.

FROM COLORADO AND NEW-MEXICO.

The Navajoe War Ended—The Case of Gen. Carleton—Bullets Made of Gold.

DENVER CITY, Wednesday, March 23.

Gov. EVANS has issued a proclamation calling a Constitutional Convention for the the first Monday in May.

Santa Fé papers report large public meetings in various parts of New-Mexico, vindicating Gen. CARLETON against calumnies in certain New-York papers.

KIT CARSON was at Santa Fé, in excellent health. The campaign against the Navajoes had ended. Nearly five hundred Indians had been captured, and submit to being placed on the reservation established by Gen. CARLETON.

A party of sixty influential Mexicans left the Canejos country with a Navajoe woman as guide, who reported that her people find gold so plenty that they make bullets of it.

The Santa Fé *Gazette* contains a long editorial explaining the conflict between Gen. CARLETON and Judge KNAPP. So serious has the matter become, that the Supreme Court is not held.

THE MISSING ITALIAN FRIGATE.

Report of the Brig Howard.

The following is the report of the brig *Howard*, arrived yesterday, which H. B. M. gunboat *Styx*, arrived at Halifax, reported hadspoken the Italian frigate *Re Galantuomo*:

Brig Howard, of St. John, N. B., SMITH, 62 days from Liverpool, with coal, to order. February 13, lat. 48° 4', lon. 29° 30', had a heavy gale from S. W.; washed overboard and lost PATRICK MCGRATH, a seaman, of Newry; the sea carried away jibboom, cutwater, harness casks, some of the hatches, cabin doors, wheel, and partly filled the cabin with water; February 21, lat. 49° 40', lon. 36°, in a tremendous gale from E. to N. N. E., lost boat, sails, spars, chain, and anchor; February 28, lat. 46°, lon. 48° fell in with a great quantity of drift-ice run S. S. W. to lat. 43° 50', and thus picked a way through it. March 10, lat. 39° 30', lon. 60, saw a large man-of-war steering toward southeast, apparently not fully manageable, as she varied in her course about eight points from south to east. She had close-reefed foretopsail set, reefed foresail and foretopmast staysail, the fore and mizzen topgallant masts were down, and the maintopmast broken off above the yard, the maintopsail blowing from it. March 18, lat. 41° 28', lon. 64° 14', spoke with H. B. M. gunboat *Styx*, from Halifax, in search of an Italian frigate which was in distress.

Capt. SMITH is positive that the distressed ship he saw was the *Re Galantuomo*, as he had seen her before at Naples.

Condition of Hon. Owen Lovejoy.

The condition of Mr. LOVEJOY was reported last evening to be such that his physicians gave no hope whatever of his recovery. He is slowly sinking under an affection of the heart and kidneys. He retains possession of his faculties, and is perfectly aware of his condition. Mr. LOVEJOY is the representative in Congress from the Fifth District of Illinois, having been first elected in 1860, taking his seat in the Thirty-fifth Congress. He was born in Albion, Kennebec County, Me., Jan. 6, 1811, and is consequently fifty-three years of age.

The Canadian Ministry.

MONTREAL, Wednesday, March 23.

The Canadian Ministry has not yet been formed, FERGUSON BLAIR having failed to reconstruct. Mr. CARTIER, the leader of the opposition, has been sent for by the Governor. It is generally believed that he will succeed.

H

HELMBOLD'S EXTRACT BUCHU

For weaknesses arising from Excesses, Habits of Dissipation, Early Indiscretion or Abuse, attended with the following symptoms:

Indisposition to Exertion, | Loss of Power,
Loss of Memory, | Difficulty of Breathing,
Weak Nerves, | Trembling,
Horror of Disease, | Wakefulness,
Dimness of Vision, | Pain in the Back,
Hot Hands, | Flushing of the Body,
Dryness of the Skin, | Eruptions on the Face,
Universal Lassitude of the Muscular System. | Pallid Countenance,

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow

IMPOTENCY, FATUITY, EPILEPTIC FITS.

In one of which the patient may expire. Who can say they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION!

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION ONCE AFFECTED BY ORGANIC WEKNESS

requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. A trial will convince the most skeptical.

HELMBOLD'S EXTRACT BUCHU

CURES SECRET DISEASES

in all their stages, at little Expense; little or no change of Diet; no Inconvenience. AND NO EXPOSURE.

It causes frequent desire and gives strength to Urinate, thereby removing obstructions, preventing and curing strictures of the urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling POISONOUS, DISEASED AND WORN-OUT MATTER.

Thousands upon thousands who have been the

VICTIMS OF QUACKS,

and who have paid HEAVY FEES to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and,

PERHAPS, AFTER MARRIAGE.

SYPHILIS.

This is an affection of the blood, and attacks the sexual organs, linings of the nose, ears, throat, windpipe and other mucus surfaces, making its appearance in the form of ulcers. Helmbold's Extract Sarsaparilla purifies the blood, and removes all scaly eruptions of the skin, giving to the complexion a clear and healthy color. It being prepared expressly for this class of complaints, its blood-purifying properties are preserved to a greater extent than any other preparation of sarsaparilla.
